The Significant GO Terms in MEgreenyellow
intermediate filament
intermediate filament cytoskeleton
supramolecular complex
cytoskeleton
GO term
0
5
10
15
GeneNumber
type
cellular component

The Significant GO Terms in MEblack
epithelial cell differentiation
intermediate filament
intermediate filament cytoskeleton
supramolecular complex
cytoskeleton
GO term
0

20
30
GeneNumber
type
cellular component
biological process

The Significant GO Terms in MEtan
transferring acyl groups other than amino−acyl groups
response to corticotropin−releasing hormone
cellular response to corticotropin−releasing hormone stimulus
fatty acid biosynthetic process
GO term
0
1
2
3
4
5
GeneNumber
type
molecular function
biological process

The Significant GO Terms in MEpurple
oxidoreductase activity, oxygen as acceptor
bone development
collagen type I trimer
collagen trimer
collagen−containing extracellular matrix
extracellular matrix
extracellular region
GO term
0
10
20
30
GeneNumber
type
molecular function
cellular component
biological process

The Significant GO Terms in MEbrown
structural constituent of ribosome
structural molecule activity
translation
cellular amide metabolic process
organonitrogen compound biosynthetic process
cellular metabolic process
metabolic process
GTPase complex
heterotrimeric G−protein complex
organellar ribosome
large ribosomal subunit
mitochondrial protein complex
ribonucleoprotein complex
ribosome
mitochondrion
non−membrane−bounded organelle
intracellular organelle
organelle
intracellular
GO term
0

200
300
400
GeneNumber
type
molecular function
cellular component
biological process

The Significant GO Terms in MEmagenta
regulation of B cell receptor signaling pathway
negative regulation of immune system process
cellular response to cytokine stimulus
regulation of multicellular organismal development
positive regulation of response to stimulus
immune system process
cell surface receptor signaling pathway
cellular response to chemical stimulus
regulation of response to stimulus
MHC class I protein complex
MHC protein complex
extracellular region
membrane
GO term
