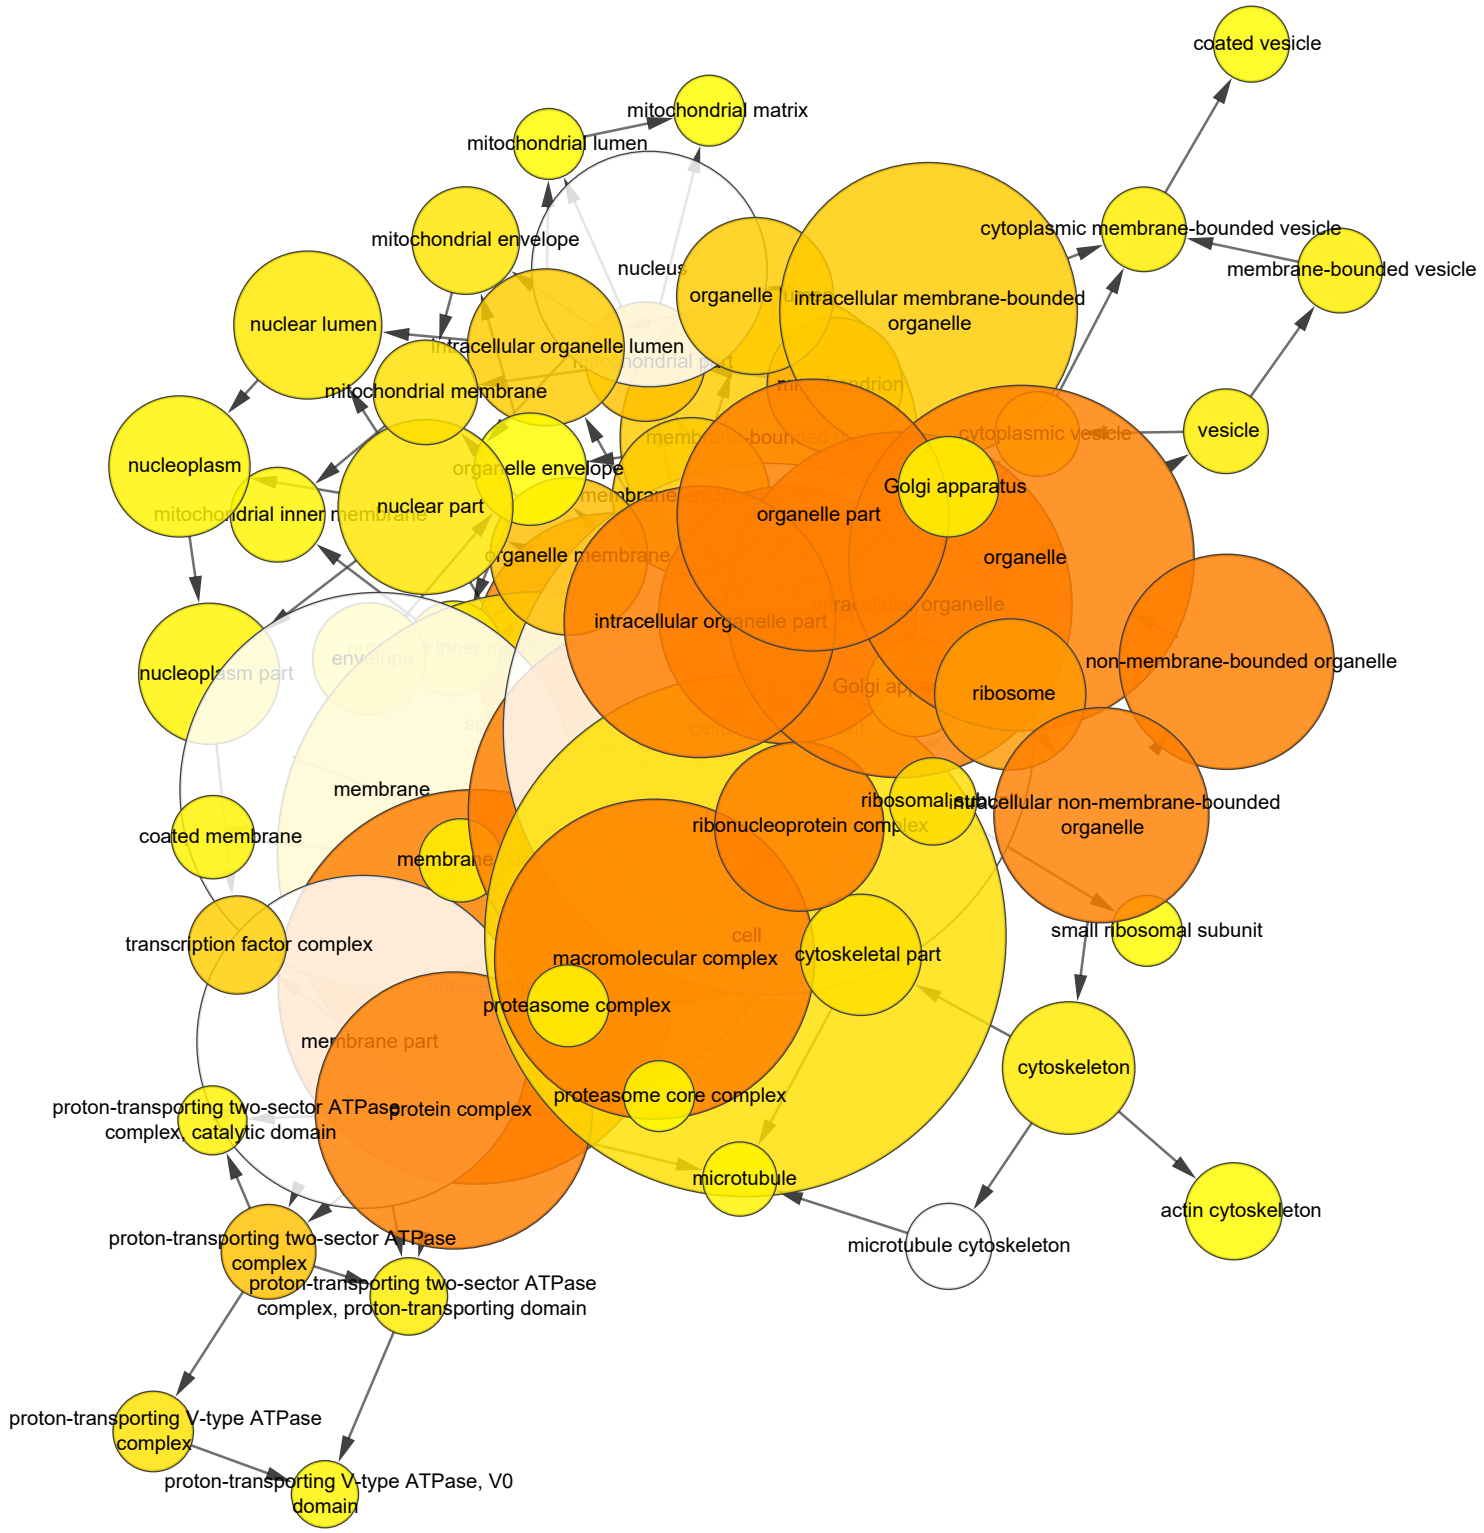
Figure S4



coated vesicle
mitochondrial matrix
mitochondrial lumen
cytoplasmic membrane-bounded vesicle
membrane-bounded vesicle
mitochondrial envelope
nucleus
organelle
intracellular membrane-bounded organelle
nuclear lumen
intracellular organelle lumen
mitochondrial membrane
vesicle
nucleoplasm
nuclear part
Golgi apparatus
organelle part
organelle
intracellular organelle part
non-membrane-bounded organelle
ribosome
membrane
coated membrane
ribonucleoprotein complex
intracellular non-membrane-bounded organelle
transcription factor complex
small ribosomal subunit
macromolecular complex
cytoskeletal part
proteasome complex
membrane part
cytoskeleton
proton-transporting two-sector ATPase complex, catalytic domain
protein complex
proteasome core complex
microtubule
actin cytoskeleton
proton-transporting two-sector ATPase complex
microtubule cytoskeleton
proton-transporting two-sector ATPase complex, proton-transporting domain
proton-transporting V-type ATPase complex
proton-transporting V-type ATPase, V0 domain
