

Supplementary Table S1. Effects of moderating variables.

Static and dynamic studies (n = 21)	Dynamic studies (n = 11)	Static studies (n = 10)
CMJ		
 <p>Egger's Regression $Z = -2.4, p = 0.025$</p>	 <p>Egger's Regression $Z = -1.3, p = 0.235$</p>	 <p>Egger's Regression $Z = -1.8, p = 0.113$</p>
Static and dynamic studies (n = 8)	Dynamic studies (n = 4)	Static studies (n = 4)
ROM		
 <p>Egger's Regression $Z = 3.4, p = 0.014$</p>	 <p>Egger's Regression $Z = 3.4, p = 0.014$</p>	 <p>Egger's Regression $Z = 5.4, p = 0.033$</p>
