

Table S1. Acetylcholinesterase (AChE) and butyrylcholinesterase (BChE) activity (% comparing to control samples) after treatment by 9-Amino-1,2,3,4-tetrahydroacridine hydrochloride hydrate

Concentration	0 μ M	10 μ M	15 μ M	20 μ M	25 μ M	50 μ M
AChE inhibition%	100	32.1	23.6	19.4	15.0	9.0
BChE inhibition%	100	17.2	11.3	9.0	7.7	4.0

Table S2. Pearson's correlation analysis for the hydromethanolic extracts of the tested *W. somnifera* commercial samples.
