Message from the Guest Editors

Dear Colleagues,

Materials welcomes submissions to a Special Issue on "Functional Magnetic Materials: Properties, Characterization and Application." The Special Issue covers all the areas of functional magnetic materials including magnetic materials and magnetic shielding, including but not limited to topics regarding their properties, characterization, devices, instrumentations, and applications. This Special Issue offers a wide scope, covering all the areas of magnetic materials and magnetic shielding, and welcomes different types of submissions such as research, tutorials, perspectives, and review articles. This Special Issue also welcomes roadmap articles on functional magnetic materials technology covering the latest developments, current state-of-the-art methods, challenges, and future perspectives. Please contact the guest editors if you have questions regarding the relevance of your contributions to the above topics.

Materials (ISSN 1996-1944) was launched in 2008. The iournal covers twenty-five comprehensive biomaterials, energy materials, advanced composites. advanced materials characterization, porous materials, manufacturing processes and systems. nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials. materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, green materials, general. Materials provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.
