Error in Figure

In the original publication, a mistake was observed in Figure 5 as published [1]. Unfortunately it was, in fact, overlooked while formulating Figure 5, where the dry picture at 0 h for formulation R7 was pasted in place of R8 in the published file. The corrected version of Figure 5 with the rectified image of R8 at 0 h in Figure 5 appears below.

Figure 5. Photographic swelling pattern of the buccal formulations.

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
