Table S1. Relative formulations of each of the six comonomers (Mon_a to Mon_f) from Figure 1 in the comonomer solution, the initiator content, and the accelerator content; all values expressed in a relative scale per column (ranging from minimum to maximum content). To facilitate the comparison of cases they are grouped in Group I-V.

Group	Case	Mon_a	Mon_d	Mon_b	Mon_e	Mon_c	Mon_f	Initiator	Accelerator
I	A	██████	-	██████	██████	-	-	██████	██████
	B	██████	██████	██████	██████	-	-	██████	██████
	C	██████	██████	██████	██████	-	-	██████	██████
	D	██████	██████	██████	██████	-	-	██████	██████
II	E	██████	██████	██████	██████	-	-	██████	██████
	F	██████	██████	██████	██████	-	-	██████	██████
	G	██████	██████	██████	██████	-	-	██████	██████
III	H	██████	██████	██████	██████	-	-	██████	██████
	I	██████	██████	██████	██████	-	-	██████	██████
IV	J	██████	██████	-	-	██████	██████	██████	██████
	K	██████	██████	-	-	██████	██████	██████	██████
	L	██████	██████	-	-	██████	██████	██████	██████
V	M	██████	██████	██████	-	-	██████	██████	██████
	N	██████	-	██████	-	-	██████	██████	██████

Table S2. Initiator and accelerator content for the formulation cases tested for pot life, with the initiator content and the accelerator content expressed in an individual relative scale (ranging from minimum to maximum content). Case letter from Table 1.
