

Supplementary Information  
Establishment and Characterization of SV40 T-Antigen Immortalized Porcine Muscle  
Satellite Cell

**A**

**B**

**C**

Supplementary Figure S1 ( Related to Figure 3): Establishment and characterization of SV40 T-pMuSCs. (A) Flow chart of lentivirus infection in primary MuSCs. (B) Immunostaining of SV40T MuSCs at P1, P10, P30, and P40 generations using DAPI (blue) and anti-SV40T (green) antibody. Scale bar, 100 µm. (C) Morphological images of P1-generation primaryMuSCs and SV40T pMuSCs at different passages.
