

Supplementary Materials: Measuring the Sustainability of Water Plans in Inter-Regional Spanish River Basins

María M. Borrego-Marín and Laura Riesgo

Table S1. Indicators value per inter-regional water agency.

Inter-Regional Water Agency	Overall Sustainability												
	Economic				Environmental		Social			Governance			
	Ratio of Cost Recovery (%)	Water Productivity (€/m³)	Budget Limits (million €/km²)	Water Stress (%)	Number of Measures of Environmental Objectives	Efficiency: Losses in Distribution (%)	Reused Water (hm³)	Additional Population Served (%)	Number of Measures Aimed at Satisfying Demands	Employment (thousand people/hm³)	Number of Measures to Improve Governance	Number of Administrations	Number of Initiatives
Western Cantabrian	85	68.74	51.22	3	250	24.9	0.0	109.0	107	1.28	31	12	9
Eastern Cantabrian	67	188.22	126.59	58	166	24.9	2.6	100.0	59	3.00	61	24	8
Douro	49	9.89	22.40	34	584	17.2	0.0	114.4	54	0.19	39	17	14
Ebro	85	9.22	25.33	56	479	17.5	14.0	100.0	75	0.16	66	22	123
Guadalquivir	73	17.34	45.08	46	724	15.8	16.7	100.7	61	0.36	54	10	21
Guadiana	59	10.13	22.33	42	521	24.0	9.1	100.0	6	0.22	105	10	15
Jucar	78	27.61	24.62	98	287	20.3	121.5	110.0	25	0.54	128	12	21
Minho-Sil	44	34.71	38.33	34	298	18.7	0.0	110.6	82	0.67	105	7	63
Segura	57	19.34	96.56	96	556	14.3	140.1	110.1	135	0.41	239	10	18
Tagus	81	62.76	45.10	37	680	20.3	10.0	106.1	91	1.13	141	16	9
