Deadline for manuscript
submissions:

10 October 2024

Message from the Guest Editors

Dear Colleagues,

It is our great pleasure to invite you to contribute to this Special Issue of the *Journal of Personalized Medicine*.

In the past few decades, our understanding of sinonasal pathologies and skull base lesions has improved. As a result, many inflammatory sinonasal lesions involving the skull base may now be effectively treated endoscopically, and several benign and malignant tumors can be approached using different personalized surgical techniques. Nevertheless, several limits are still present and, for some rare histologies, the correct management is still open to debate.

In this Special Issue, we aim to highlight the most recent advancements in this field, focusing our attention on the personalized management of different sinonasal and skull base pathologies.

Dr. Alessandro Vinciguerra

Dr. Mario Turri-Zanoni

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
