submissions:

31 October 2024

Message from the Guest Editor

Dear Colleagues,

In the last decade, personalized medicine has shifted the traditional “one size/drug fits all” approach into a more stratified therapeutic strategy, which includes prevention, diagnostics, therapy/treatment, and rehabilitation. Personalized medicine aims to change the healthcare landscape, focusing on the individual patient to empirically identify the most effective health and wellness strategies at a personal level. This approach will also assess if the cost of treatments are validated by their utility, as well as opening doors for innovations regarding diseases where no current treatments change the course of the disease, such as head and neck squamous cell carcinoma, tinnitus, or hearing loss.

This Special Issue aims to provide a broad overview of personalized medicine across all subspecialties of otolaryngology, different clinical or basic science methodology, as well as cutting edge therapeutic options, such as gene/stem cell therapy. Moreover, this Special Issue will cover all aspects of personalized treatment or rehabilitation options in the field of otolaryngology and their positive impact on the patient’s survival or quality of life.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
