Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to publish high-quality review papers in the field of physical sensors. Contributions may focus on all types of physical sensors, based on the magnetic, semiconducting, dielectric, conducting and superconducting properties of various materials, and thus may refer to magnetic, electric, optic, acoustic and other types of physical sensors, used in the industry, biomedicine, defense, transportation, etc.

Manuscripts should include the current state of the art and perspectives in the field, illustrating the advances offered by the authors. All types of reviews will be considered as long as they meet the journal's standards. We encourage researchers from various fields to contribute reviews highlighting the latest developments in their field or to invite relevant experts and colleagues to do so.

Prof. Dr. Evangelos Hristoforou

Orabona n. 4, 70125 Bari, Italy

Message from the Editor-in-Chief

Sensors is a leading journal devoted to fast publication of the latest achievements of technological developments and scientific research in the huge area of physical, chemical and biochemical sensors, including remote sensing and sensor networks. Both experimental and theoretical papers are published, including all aspects of sensor design, technology, proof of concept and application. *Sensors* organizes Special Issues devoted to specific sensing areas and applications each year.

Author Benefits

Open Access : free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [Ei Compendex](#), [Inspec](#), [Astrophysics Data System](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Instruments & Instrumentation*) / CiteScore - Q1 (*Instrumentation*)
