Deadline for manuscript
submissions:

closed (26 April 2024)

Message from the Guest Editor

Dear Colleagues,

Management Information Systems (MIS) play a vital role in promoting and enhancing sustainability efforts within organisations and across the globe. By leveraging technology and data, MIS enables the gathering, analysis, and dissemination of information related to sustainability that leads to the best practices and policies.

We encourage submissions of papers that address themes including, but not limited to, the following:

- Analysis of environmental data such as energy consumption, waste generation, water usage, carbon emission, etc.
- Development of real-time performance tracking and reporting to assess sustainability initiatives, identify trends, and facilitate evidence-based decision making.
- Advanced sustainability practices in the supply chain.
- Resource optimisation for sustainability, such as energy, water, and natural resources.
- Strategy development leading to reduced environmental impact.
- Development of environmental impact assessments.
- Development of transparency and accountability in sustainability practices.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
