Supplementary Table S3 The composition of the studied NADES and their abbreviations.

Component 1	Component 2	Mole ratio	NADES abbreviation	Appearance
Glucose	lactic acid	1:3	GluLA	Slightly viscous, pale yellowish liquid
Glucose	malic acid	1:3	GluMA	Moderately viscous, transparent
Glucose	citric acid	1:3	GluCA	Highly viscous, transparent

\*Following the formation of NADES, each NADES was added with water (20%, v/v).
