

## Supplementary Figure S1

## Supplementary Figure S1

Original, uncropped western blot images for Figure 3A, B. The bands of Bax, Bcl-2, caspase-3, and cleaved caspase-3, and molecular weights of markers in CMT-U27 cell.

## Supplementary Figure S2

## Supplementary Figure S2

Original, uncropped western blot images for Figure 3C, D. The bands of Bax, Bcl-2, caspase-3, and cleaved caspase-3, and molecular weights of markers in CF41.mg cell.

## Supplementary Figure S3

## Supplementary Figure S3

Original, uncropped western blot images for Figure 4. The bands of CDK4 and cyclin D1, and molecular weights of markers in CMT-U27 and CF41.mg cells.

## Supplementary Figure S4

Original, uncropped western blot images for Figure 5. The bands of ER $\beta$  and ER $\alpha$ , and molecular weights of markers in CMT-U27 and CF41.mg cells.

# Supplementary Figure S5

## Supplementary Figure S5

Original, uncropped western blot images for Figure 6A-C. The bands of p-PI3K, PTEN, p-PTEN, AKT and p-AKT, and molecular weights of markers in CMT-U27 cell.

## Supplementary Figure S6

## Supplementary Figure S6

Original, uncropped western blot images for Figure 6D-F. The bands of mTOR, p-mTOR, p-PI3K, PTEN and p-PTEN, and molecular weights of markers in CMT-U27 cell.

## Supplementary Figure S7

## Supplementary Figure S7

Original, uncropped western blot images for Figure 6G, H. The bands of AKT, p-AKT, mTOR and p-mTOR, and molecular weights of markers in CF41.mg cell.
