

Supplementary Materials

Table S1 – List of the samples used for assessed analytical specificity as inclusivity and exclusivity. For each a result positive (+) or negative (–) was reported. For the duplex assay the target or targets that reacted were reported in the brackets. NT – not tested.

		<i>Real-time RT-PCR</i>			<i>ddRT-PCR</i>	
	sample ID	ToFBV	TRM	duplex	ToFBV	TRM
inclusivity results	92	+	-	+ (ToFBV)	+	-
