**Figure S2.** Sensitivity analysis. Estimating prevalence (A) excluding small studies (<100), (B) excluding low- and medium-quality studies, (C) using a fixed-effects model; estimating risk ratio (D) excluding small studies (<100), (E) excluding low- and medium-quality studies, (F) using a fixed-effects model and estimating mean difference (G) excluding small studies (<100), (H) excluding low- and medium-quality studies, and (I) using a fixed-effects model.
