

# Questionnaire evaluation of surgical simulation models

Year of experience

Date

Model evaluated: Silicone model / Pig tongue model

## FACE VALIDITY

Tongue model feels realistic	1	2	3	4	5
Tumor model feels realistic	1	2	3	4	5
Performing the Incision and operation feels realistic	1	2	3	4	5

1 = Poor 2 = Unsatisfactory 3 = Satisfactory 4 = Good 5 = Excellent

## CONTENT VALIDITY

The simulation aids to appreciate margins in oral cancer surgery	1	2	3	4	5
The simulation improved my surgical techniques	1	2	3	4	5
The simulation improved my understanding of margin sampling	1	2	3	4	5

1 = Poor 2 = Unsatisfactory 3 = Satisfactory 4 = Good 5 = Excellent

### UTILITY OF MODEL AS TRAINING TOOL

The model is ideal for medical student	1	2	3	4	5
The model is ideal for residents	1	2	3	4	5
The model is ideal for fellows	1	2	3	4	5
The model is ideal for ENT surgeons as part of continual education	1	2	3	4	5

1 = Poor 2 = Unsatisfactory 3 = Satisfactory 4 = Good 5 = Excellent
