Message from the Guest Editors

Radiomics is an emerging field within oncology that extracts valuable information from imaging data to better understand a tumor's biology, behavior, and its surrounding environment. Recent advances have significantly impacted the progress of radionics in oncology, with several major topics emerging at the forefront of research.

This Special Issue seeks to highlight the latest achievements in these major topics within the context of cancer management. We encourage submissions focusing on molecular basis of radiomics, QA and phantom design, and multi-omics integration in radiomics research.

Deadline for manuscript
submissions:

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
