gu, Cheonan 31151, Republic of
Korea

Deadline for manuscript
submissions:

closed (31 October 2023)

Message from the Guest Editor

The lower extremities, including the foot and ankle, are receiving an increasing amount of attention in the field of orthopedics compared to other parts of the body. Various diseases and deformities, trauma, and sports injuries can afflict this area of the body, and the field of orthopedics is evolving day by day.

Accordingly, there have been many developments in the field of orthopedic surgery, and a number of new challenges have emerged, and many researchers want to share updated knowledge and research. We are pleased to announce the launch of a new Special Issue, entitled “Update on Orthopedic Surgeries of the Lower Extremity Diseases and Injuries”. This Special Issue will focus on all emerging research papers related to lower extremity diseases or injuries, clinical studies, and trauma- and sports-related medical fields with regard to orthopedic surgeries. We look forward to inviting authors to submit reviews or original research that fit this scope.
