

**Supplementary Table S1.** The five periods under study, differentiated by the intensity of the COVID-19 pandemic and sanitary restrictions.

<b>Period</b>	<b>COVID cases</b>	<b>Comments</b>	
1	January 1-31, 2020	None reported	Dining rooms opened (reference period).
2	April 1-30, 2020	First reports at the end of March	Dining rooms closed. Pick-up at take-out counters and delivery services maintained.
3	July 1-31, 2020	Decreasing	Dining rooms opened, but with a limit of 10 people from up to three different addresses, sitting at tables at least 2 meters apart and separated by plastic barriers.
4	October 1-31, 2020	Increasing	PR in the yellow zone (pre-alert), i.e., dining rooms opened at 50% capacity, and mandatory to keep a register of customers. GM in the red zone (maximum alert), i.e., gatherings prohibited in private homes and in indoor public places such as restaurants.
5	September 1-30 2021	Decreasing	Opening hours extended and capacity increased, but only customers with vaccination proof allowed.
