

Supplementary Material

Design-Expert® Software

Gentiopicroside

Color points by value of
Gentiopicroside:
35.7363 49.0304

Figure S1. The normal probability plot for gentiopicroside.

Design-Expert® Software

Isogentisin

Color points by value of
Isogentisin:
0.374122 0.571957

Figure S2. The normal probability plot for isogentisin.

Design-Expert® Software

TPC

Color points by value of

TPC:

10.5539 13.1757

Figure S3. The normal probability plot for total phenolics.
