CONFIDENTIALITY STATEMENT

GUIDELINES

(FOR RECORDING DATA AND COMPLETION OF CASE REPORT FORMS)

1. Make all entries in **BLACK INK** to maximize legibility and facilitate copying.
2. Write legibly and neatly in the space provided.

   e.g. : 0 1 or use tick mark in the boxes provided.

3. Use acceptable and uniform medical terminology throughout the CRF.
4. All comments should be brief, concise, clear, and confined to "comment" sections of the CRF. Write comments only if they apply to the study and the topic.
5. For recording subject initials, the first letter of the patient name followed by the first letter of the middle and last name. If there is no middle name the first two letters of the first name and the first letter of the last name should be used. In case of similar initials, the first and last letters of the first name and the first letter of the last name should be used. All initials should follow the same format. If there are more similar initials you can select any letter from the name that will create a unique initial.

   For e.g. :

Peter Heck John	Initial: P H J
Paul John	Initial : PAJ
Pasteur Jennings	Initial : PRJ

6. In case of correction DO NOT write over data, erase data, or use correction fluid. Do a straight single cut and write the data nearby with your initial and date of correction. Even if there is only a letter or number error you will have to cut the whole word or number and write above.

   R K N PK 03/12/2012 81.50 .50 PK 03/12/2012

   e.g. : ~~R~~ N ~~K~~ correct ~~8~~ 1 . ~~0~~ ~~5~~ correct 8 1. ~~0~~ ~~5~~ wrong

7. Complete all blanks. If data are missing, use one of the following conventions:

   NA (Not Applicable) / ND (Not Done) / UNK (Unknown)

8. Verify all UNITS are recorded as specified in the CRF.

9. TIME to be recorded in a 24 hour clock HH / MM format only.

   e.g.: 1 3. 5 0 for 1. 50 p.m.

10. Enter all dates only in DD/ MMM / YY format.

    e.g.: 10/ OCT / 17

11. Use a BLACK CARBON SHEET in between two similar CRF pages to obtain the imprint on the copy page which will be considered the 'Duplicate Copy' of CRF that will remain at the site. The 'Original Copy' will be retrieved by the CRO for Data Entry purposes and documentation thereafter.

12. The investigator must review and sign off each CRF (at the end of each visit) as a confirmation of his/her review
