

Table 1. Percentiles of fire duration (days) for fires ≥ 0.01 , 0.1, 1, 100, 500, and 1000 ha during the study period (2001–2011). Fire duration spans fire detection to fire being declared out.

Percentile	Fire Size (ha)						
	0.01	0.1	1	10	100	500	1000
99.5	1.4	2.1	3.1	6.9	10.3	13.4	11.7
97.5	0.5	0.8	1.3	3.3	6.3	9.2	10.1
90	0.2	0.3	0.4	1.5	3.3	5.7	6.9
75	0.1	0.2	0.2	0.8	2.0	3.3	4.4
50	0.1	0.1	0.1	0.4	1.0	1.8	2.4
25	0.0	0.1	0.1	0.2	0.5	1.0	1.1
10	0.0	0.0	0.1	0.1	0.2	0.4	0.4

Table S2. Correlation matrix between regional population density and biophysical variables among Portugal regions ($n = 18$). Correlations significant at $p < 0.05$, $p < 0.01$, and $p < 0.001$ are denoted respectively by *, **, and ***.
