^{a,b,c}West-east, South-north and vertical velocity components respectively

^dThe reported velocities were linearly extrapolated to Feb. 1st, 1996 (see section 2.3). The given positions are at the end of the acquisition interval.

^eDeployed within the Ice2sea project. The given positions are at the start of the acquisition interval.

^fAutomatic Weather Station (AWS) deployed within the PROMICE project

^gDTU campaign measurements
