14

(b)

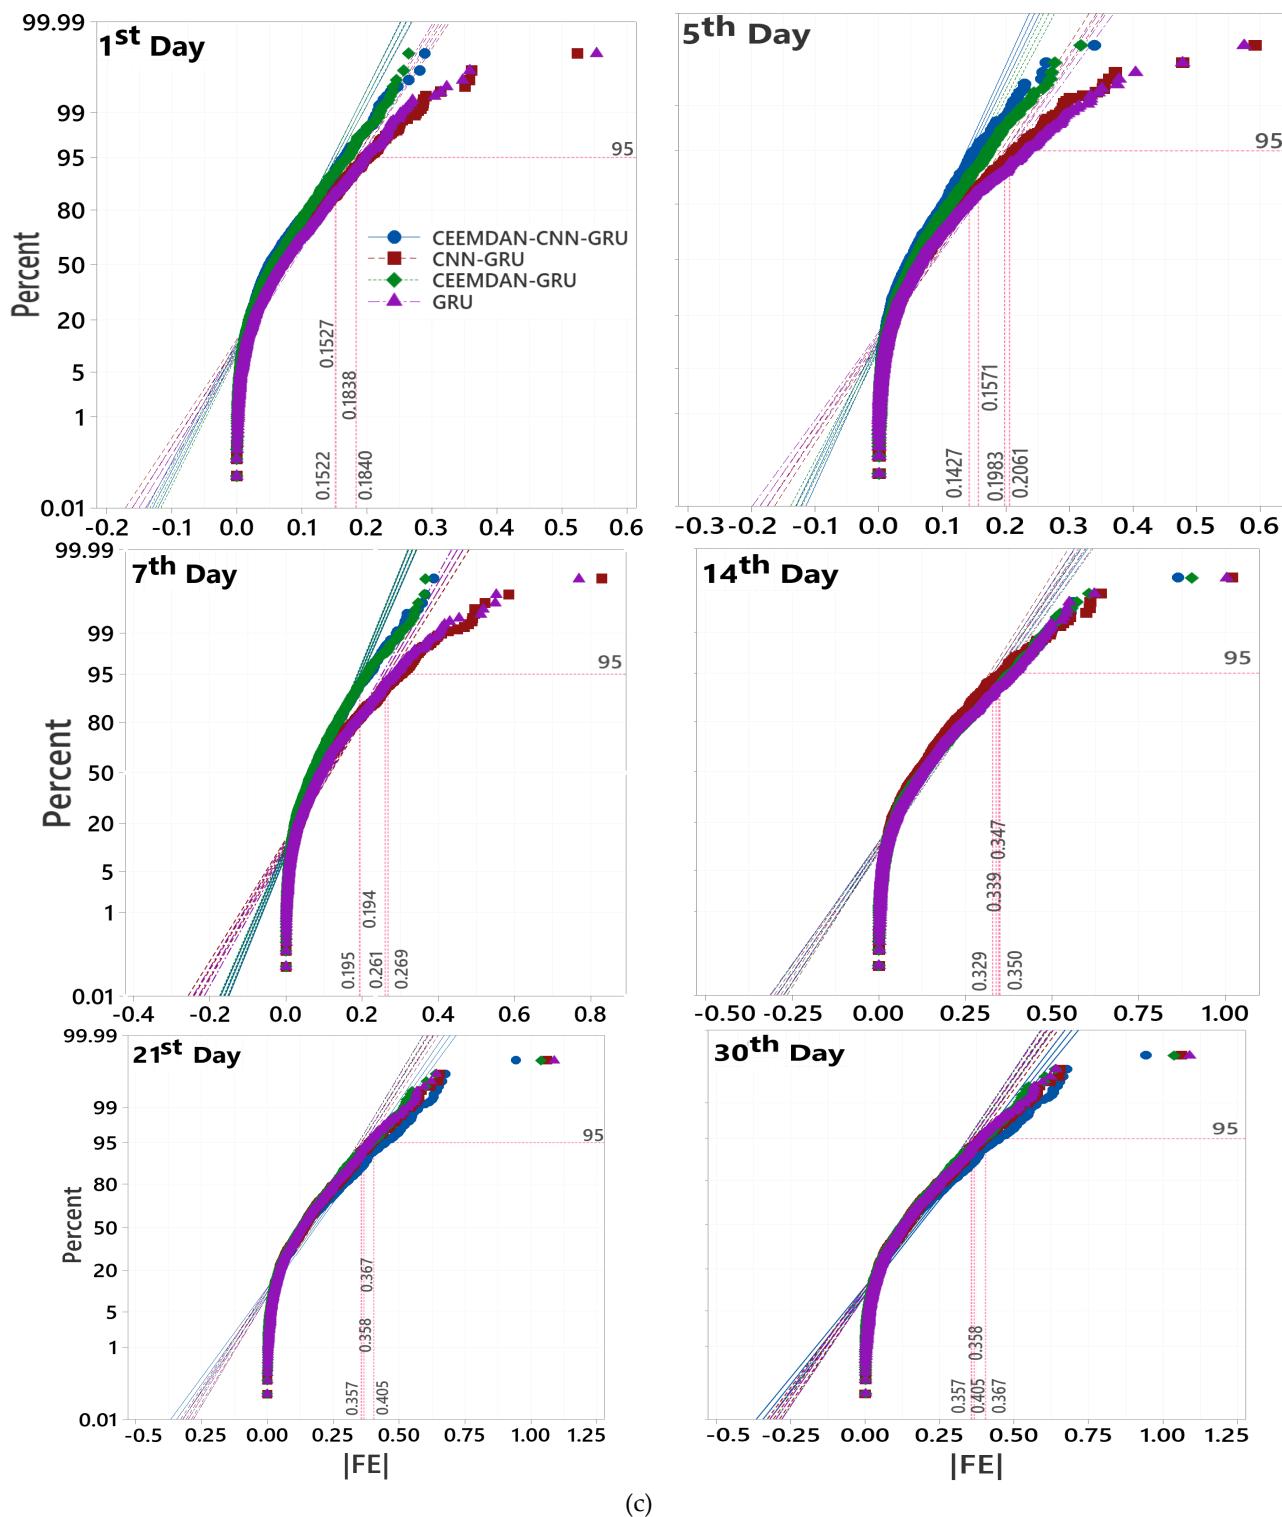

Figure S1. Probability plot for the objective model (i.e., CEEMDAN-CNN-GRU), benchmark model (i.e., CNN-GRU, CEEMDAN-GRU), and the standalone model (i.e., GRU) for (a) Deniliquin, (b) Fairfield and (c) Gabo Island stations at different n^{th} ($n = 1, 5, 7, 14, 21$ and 30) Days. The reference points are provided at 95 percentiles on the probability of comparing the model.
