

# Supplementary Material: Purification and Characterization of a Novel Antiplatelet Peptide from *Deinagkistrodon acutus* Venom

Yi Kong, Qing Sun, Qi Zhao and Yaqiong Zhang

**Figure S1.** Mass spectrum of DAA-8. The molecular mass of DAA-8 was determined using ESI-MS. It was shown that the  $m/z$  value of  $[M+H]^+$  was 1033.25 Da.
