

Supplementary Materials

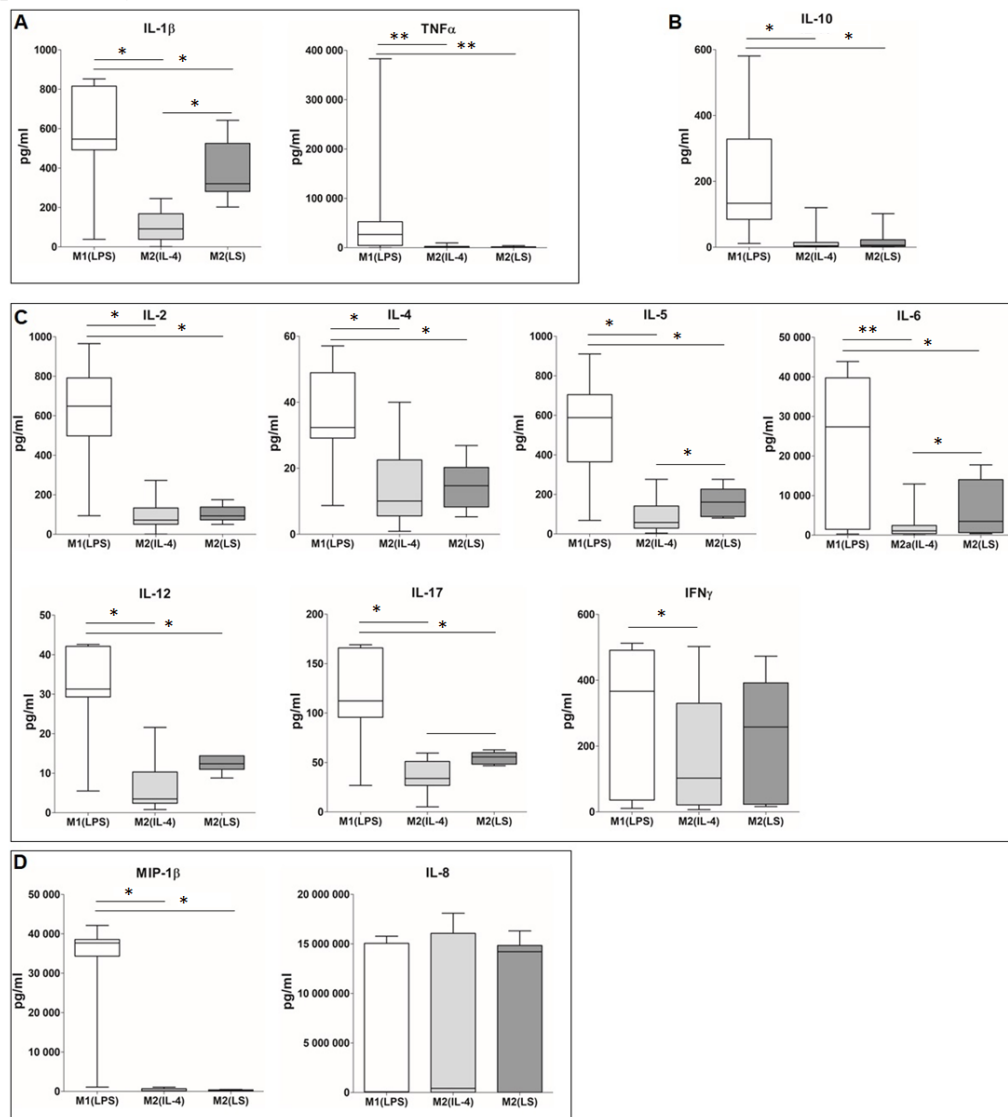

Figure S1. Cytokines and chemokines produced by M1(LPS), M2(IL-4), and M2(LS) macrophages. Data are presented as median, interquartile range, minimum and maximum, n=6-16. * significant at <0.05, ** significant at <0.01. **(A)** Pro-inflammatory cytokine (IL-1, TNF α) production (n=6-16). **(B)** Anti-inflammatory (IL-10) cytokine production (n=16). **(C)** Immunoregulatory cytokine (IL-2, -4, -5, -6, -12, -17, IFN- γ) production (n=6-16). **(D)** Chemokine (MIP-1 β , IL-8) production (n=6-16).
