

## SUPPLEMENTARY MATERIAL

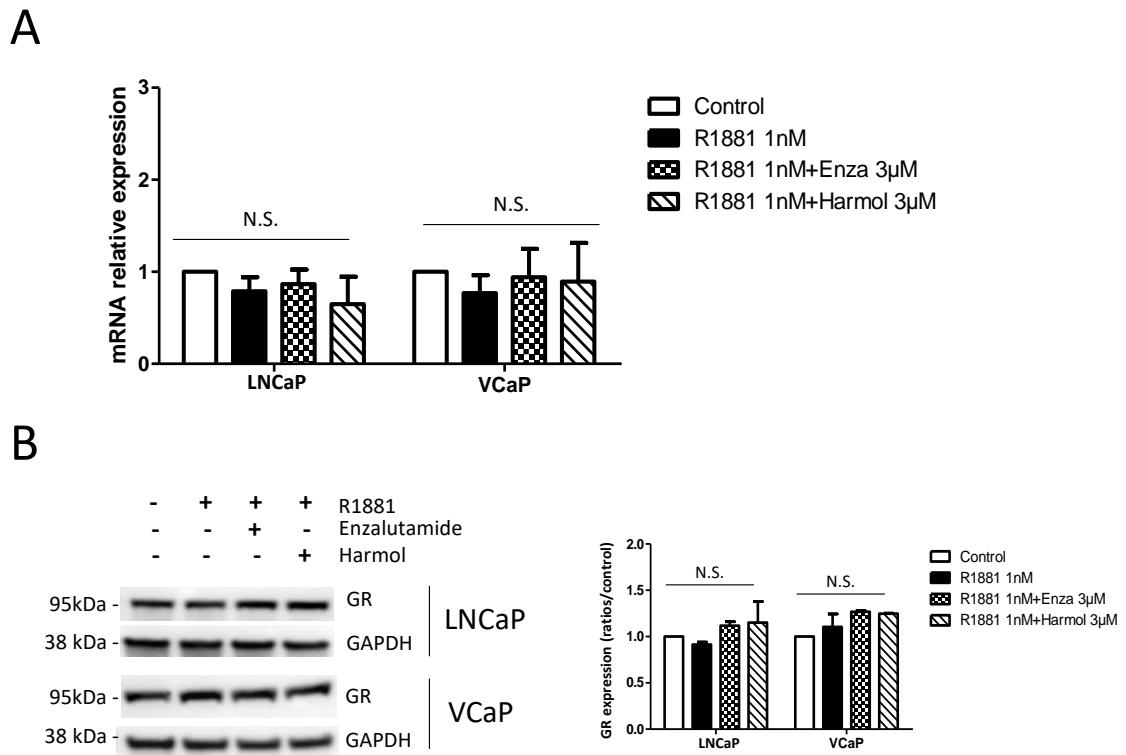

**Supplementary Figure S1. Choice of the AR responsive element and of the AR ligand for the screening assays** **(A)** Comparison of the agonist effect between DHT and R1881 in U2OS-hAR-ARE-Luc cells. Cells were treated with indicated concentrations of the androgens for 16h and AR transactivation was evaluated as described in Materials and Methods. **(B, C)** Comparison between the Rad9 and the probasin (PB) sequences of the AR responsive element (ARE) for the induction of AR transcriptional activity. U2OS cells were transiently transfected with a plasmid expressing hAR **(B)** or hARv7 **(C)**, a Firefly luciferase reporter plasmid containing either the Rad9 or the PB ARE and a plasmid expressing the Renilla luciferase. The next day cells were incubated for 16 h in the presence of 100 nM R1881 and the luminescence was quantified. The results were expressed as ratios between the activity of the Firefly luciferase and the Renilla luciferase.

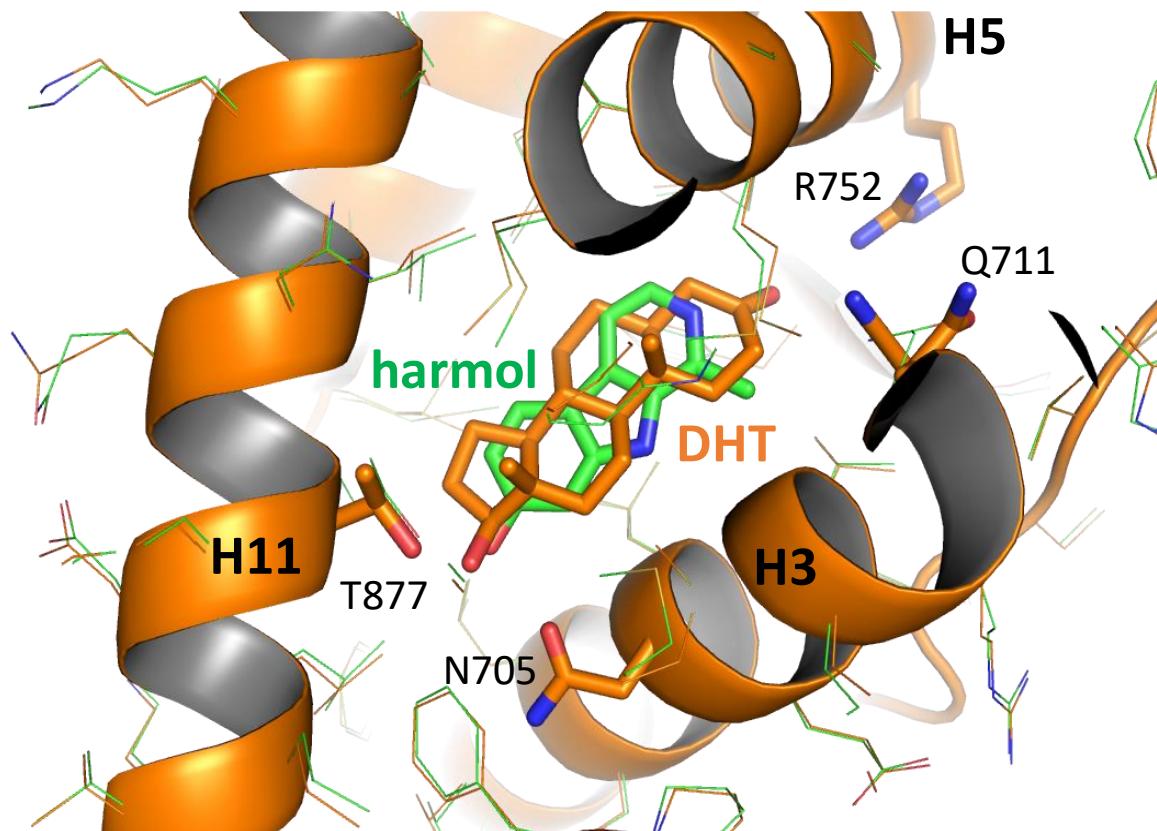

**Supplementary Figure S2. Harmol is a competitive antagonist of the full-length AR in PC3 and DU145 prostate cancer cells overexpressing AR.** (A) Dose response curves performed with harmol in PC3 cells stably overexpressing AR (PC3 hAR MMTV-luc) in the presence of increasing concentrations of R1881 (0.1, 0.3, 1, 10 nM) using the same transactivation assays as in Fig. 3. Results are the mean  $\pm$  SEM of two independent experiments performed in quadruplicate. (B) Same as in (A) using DU145 cells (5,000 cells/100 mm<sup>2</sup> dish) transiently co-transfected with 10  $\mu$ g of pSG5-hAR-Puro(R), 10  $\mu$ g of 6xARE-PB-)luc+-Hygro(R), and 5  $\mu$ g of the pRL-CMV Renilla plasmids using lipofectamine 2000. One day later, transactivation assays were conducted as described in Materials and Methods. Results are the mean of two independent experiments performed in quadruplicate and are expressed as ratios between the activity of the Firefly luciferase and the Renilla luciferase and normalized as % compared to cells treated with R1881 at 10nM

**Supplementary Figure S3. Harmol hydrochloride and enzalutamide are cytostatic.** (A) Western blots showing the basal expression of AR and ARv7 in LNCaP, VCaP and 22RV1 prostate cancer cells. GAPDH was used as a loading control. (B) Effects of Harmol hydrochloride and enzalutamide on cell death. Spheroids were treated for 7 days with the indicated concentrations of each drug, stained with PI (1 mg/mL) for 30 min and luminescence was evaluated using the Celigo® imaging system. Results are expressed as mortality ratios as compared to untreated spheroids (set at 1). Each point represents the mean  $\pm$  SEM of 3 independent experiments.

**Supplementary Figure S4. Effects of Harmol and Enzalutamide on the expression of GR.**  
 LNCaP and VCaP cells were treated for 24h with 3  $\mu$ M harmol hydrochloride or enzalutamide in the presence of 1 nM R1881 and GR expression was evaluated by RT-qPCR (n=3) (A) and by Western blotting (n=2) (B). Results are expressed as means  $\pm$  SEM of mRNA or protein levels relative to untreated cells; N.S. Not significant.

pKd 5.6

**Supplementary Figure S5. Modeling of harmol hydrochloride (in green) in the ligand binding pocket of AR.** For comparison, the model is superimposed on the crystal structure (PDB code 1T7R) of hAR bound to DHT (in orange). Some residues important for DHT binding are shown in stick representation and labeled. The predicted affinity of the interaction between harmol and hAR ( $pK_d = 5.6$ ) was obtained using the server EDMon (<http://edmon.cbs.cnrs.fr>).

**Supplementary Table S1. Results of the screening of the Prestwick Phytochemical Library using the U2OS-hAR-ARE-Luc cell model.** Positive hits were considered when tested compounds could reduce (or activate) AR-mediated transcriptional activity by more than 50% in a dose-dependent manner and had no or minor effect (<20%) in U2OS-ARE-Luc control cells.

Prestwick NAT number	Compound	Results of 1st screen on AR (Results of confirmatory screen)
0001	Aristolochic Acid	No effect
0002	Astilbin	No effect
0003	Cardamonin	No effect
0004	Cimifugin	No effect
0005	Ellagic Acid	No effect
0006	Evodiamine	No effect
0007	Genistin	No effect
0008	Hesperidin	No effect
0009	Huperzine A	No effect
0010	Indirubin	No effect
0011	Jervine	No effect
0012	Matrine	No effect
0013	Rutaecarpine	No effect
0014	Rutin	No effect
0015	Salicin	No effect
0016	Strychnine	No effect
0017	Acacetin	No effect
0018	Berlambine	No effect
0019	Betulinic acid	No effect

0022	Eleagnine hydrochloride (R,S)	No effect
0023	Betonicine	No effect
0024	Myosmine	No effect
0025	Methoxy-6-harmalan	No effect
0026	Norharman	No effect
0027	Piperlongumine	No effect
0028	Rotenone	No effect
0029	Apigenin	No effect
0030	Anisomycin	No effect
0031	Genistein	No effect
0032	Pyridostigmine bromide	No effect
0033	Kaempferol	No effect
0034	Angelicin	No effect
0035	Baicalin	No effect
0036	Cynarin	No effect
0037	Glycitin	No effect
0038	Oxymatrine	No effect
0039	Trigonelline hydrochloride	No effect
0040	2,6-Pyridinedicarboxylic Acid	No effect
0043	Evoxine	No effect
0046	Lycorine HCl	No effect
0048	Pinocembrine	No effect
0049	Remerine HCl	Inhibition (Not confirmed)
0050	Stevioside	No effect
0051	Unsevine	No effect
0052	Lapachol	No effect

0053	1,8-Dihydroxy-3-methylanthraquinone	No effect
0055	4,4'-(2,3-Dimethyltetramethylene)dipyrocatechol	No effect
0056	Xanthurenic Acid	No effect
0058	2-Hydroxy-[1,4]naphthoquinone	No effect
0059	Honokiol	Inhibition(Not confirmed)
0060	Isoliquiritigenin	No effect
0061	Kinetin riboside	No effect
0062	Curcumin	No effect
0063	beta-lapachone	No effect
0064	Precocene 2	No effect
0065	(+/-)-2-cis-4-trans-Abscisic acid	No effect
0066	Mahanimbine	No effect
0067	Abietic Acid	No effect
0068	Roseoflavin	No effect
0069	Cotinine (-)	No effect
0070	Ursolic acid	No effect
0071	R(-) Apomorphine hydrochloride hemihydrate	No effect
0072	Tomatine	No effect
0073	Bromocryptine mesylate	No effect
0074	Hesperetin	No effect
0075	Erythromycin	No effect
0076	Catharanthine	No effect
0077	Hydrastinine hydrochloride	No effect
0078	Camptothecine (S,+)	Activation

0079	Kawain	No effect
0080	Hyoscyamine (L)	No effect
0081	Vinpocetine	No effect
0082	Vincamine	No effect
0083	Quinidine hydrochloride monohydrate	No effect
0084	Colchicine	No effect
0085	Mimosine	No effect
0086	Etoposide	No effect
0087	Arecoline hydrobromide	No effect
0088	Tocopherol (R,S)	No effect
0089	Aspartic acid, N-acetyl (R,S)	No effect
0090	Biotin	No effect
0091	Calciferol	No effect
0092	Carcinine	No effect
0093	Chlorogenic acid	No effect
0094	Coralyne chloride hydrate	No effect
0095	Digitoxigenin	Inhibition(Not confirmed)
0096	Fusaric acid	No effect
0097	Ginkgolide A	No effect
0098	Pilocarpine nitrate	No effect
0099	Lactobionic acid	No effect
0100	Lysergol	Activation
0101	Menadione	No effect
0102	Muramic acid, N-acetyl	No effect
0103	Myricetin	No effect

0104	Naringenine	No effect
0105	Naringin hydrate	No effect
0106	Neostigmine bromide	No effect
0107	Strophantidin octahydrate	Inhibition (Not confirmed)
0109	Piperine	No effect
0110	Methoxy-8-psoralen	No effect
0111	Puromycin dihydrochloride	No effect
0112	Azathymine, 6	No effect
0113	Artemisinin	No effect
0114	Quercetine dihydrate	No effect
0115	Resveratrol	No effect
0116	Glycocholic acid	No effect
0117	Methionine sulfoximine (L)	No effect
0118	Thiocolchicoside	No effect
0119	Parthenolide	No effect
0120	Mycophenolic acid	No effect
0121	Tubocurarine chloride pentahydrate (+)	No effect
0122	Dihydroergocristine mesylate	No effect
0123	Noscapine	No effect
0124	Syrosingopine	No effect
0125	Atropine sulfate monohydrate	No effect
0126	Eserine sulfate, physostigmine sulfate	No effect
0127	Aconitine	No effect
0128	Dihydroergotoxine mesylate	No effect
0129	Emetine dihydrochloride	No effect

0130	Ipratropium bromide	No effect
0131	Rauwolscine hydrochloride	No effect
0132	Corynanthine hydrochloride	No effect
