Received: 15 January 2019; Accepted: 22 January 2019; Published: 26 January 2019

The authors wish to make the following modification in their review [1]. Change *Eyprepocnemis plorans* to *Locusta migratoria* and *Eyprepocnemis monticola* to *Eumigus monticola* in the following paragraph:

“With the RepeatExplorer and RepeatMasker programs, the satellite DNA composition of the migratory locust (*Locusta migratoria*) B chromosomes was determined [19]. The ‘satellitome’ in the grasshopper *Eumigus monticola* consists of 27 satellite DNAs [6], less than half of the migratory locust, where 62 were found [19].”

The changes do not affect the scientific results. The manuscript will be updated, and the original will remain online on the article webpage, with a reference to this Correction.
