

Figure S1. Localisation of Cy3-labelled telomeric (TTAGGG)_n repeats in supernumerary chromosomal segments (SCSs) (arrowed) in diploid and polyploid cytotypes of the *Prospero autumnale* complex. **(a)** H541 (cytotype AA with one SCS), **(b)** H110-1 (cytotype AAB⁷B⁷ with two SCSs), **(c)** H110-2 (cytotype AAB⁷B⁷ with one SCS), **(d)** H641 (cytotype B⁷B⁷ with one SCS), **(e)** H258 (B⁶B⁷ hybrid with one SCS), **(f)** H574-1 (cytotype B⁶B⁶B⁷B⁷ with one SCS). Bar = 5 µm.
