

Supplementary Materials: Spatiotemporal Variability in the Water Quality of Poyang Lake and Its Associated Responses to Hydrological Conditions

Bing Li, Guishan Yang, Rongrong Wan, Yanhui Zhang, Xue Dai and Yuwei Chen

Table S1. Seasonal average values of TP relative to the annual average (2009–2014) for 15 sampling sites (maximum $Rm_{se,s,TP}$ were displayed in boldface).

Site	January	April	July	October
1	1.93	0.87	0.43	0.77
2	1.02	1.15	0.76	1.08
3	1.04	1.14	0.60	1.23
4	1.27	1.38	0.48	0.86
5	1.17	1.21	0.45	1.17
6	0.90	1.38	0.78	0.92
7	1.35	1.08	0.67	0.91
8	1.03	1.48	0.47	1.02
9	1.06	1.39	0.52	1.03
10	0.77	2.00	0.63	0.76
11	1.18	0.98	0.50	1.34
12	1.10	0.89	0.65	1.37
13	1.17	0.90	0.51	1.42
14	1.26	0.93	0.70	1.10
15	1.04	0.94	1.01	1.01

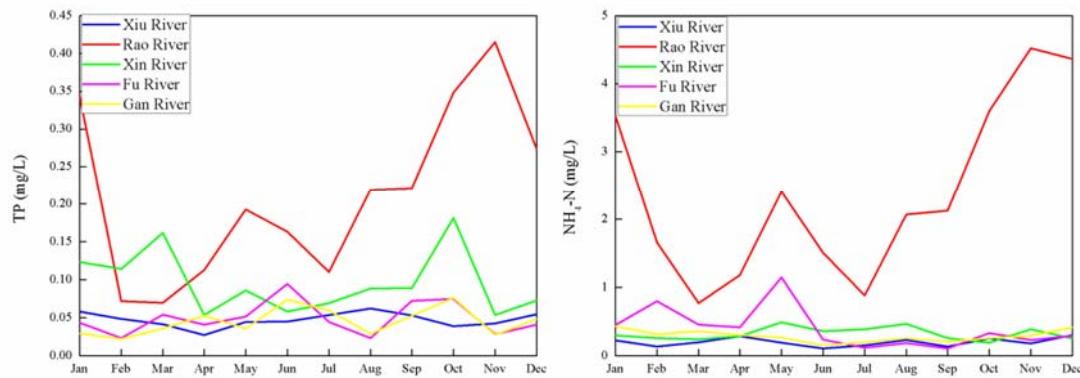

Figure S1. Variations of TP and NH₄-N concentrations from five main tributaries in Poyang Lake within the year (2009–2011).
