

Figure S1. Phylogenetic analysis of different field isolates of *Rhipicephalus microplus* through maximum-likelihood method using Jones-Taylor-Thornton (JTT) model on (1000 pseudo replicates) conserved Bm86 amino acid with worldwide published vaccine strain sequences (Bootstrap values lower than 60% removed); Gujarat sequences were arranged in a group (red color box).

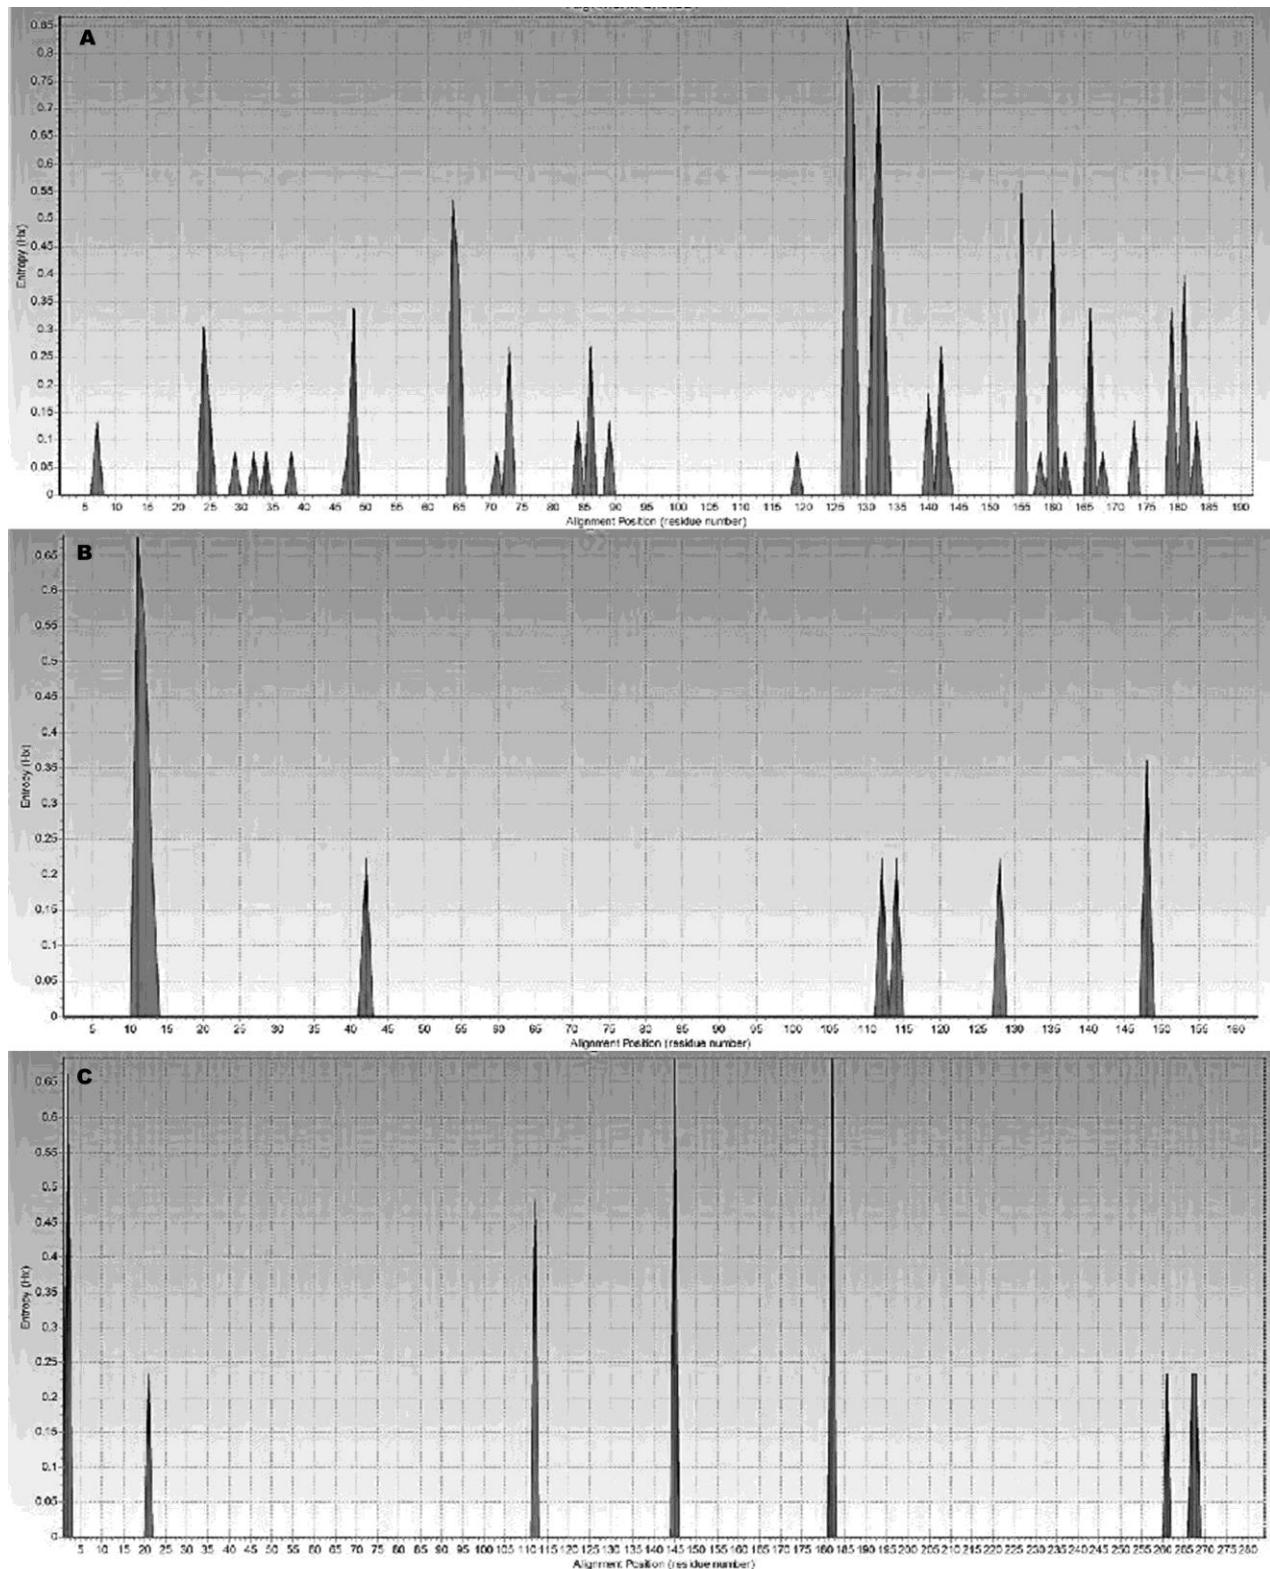

Figure S2. Entropy plot of **A.)** Conserved Bm86, **B.)** Subolesin (SUB) and **C.)** Tropomyosin (TPM) sequences of Indian field isolates.

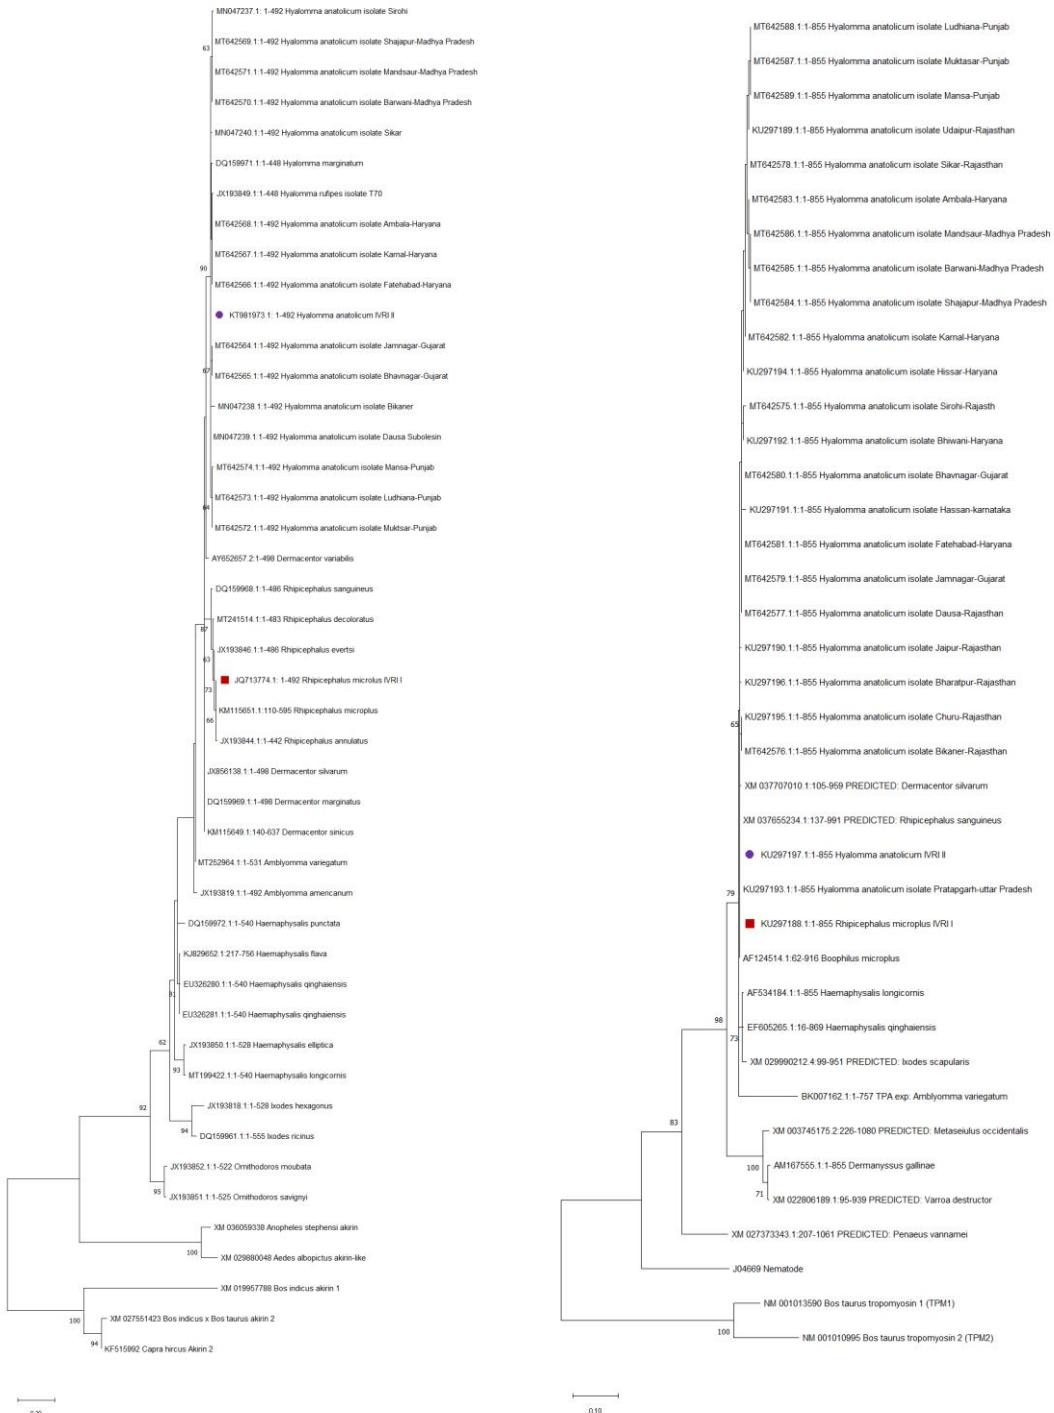

Fig. S3. A

Figure S3. Phylogenetic analysis of different isolates of *Hyalomma anatolicum* along with other ticks, arthropods and mammals on deduced amino acid sequences of (A) Subolesin (statistical Method: Maximum-likelihood; model: Jones-Taylor-Thornton (JTT) + Gamma distribution (+G) with 5 rate categories; bootstrap value:500; Neighbor-Join and BioNJ algorithms) (B) Tropomyosin (statistical Method: Maximum-likelihood; model: Le_Gascuel_2008 (LG) + Gamma distribution (+G) with 5 rate categories; bootstrap value:500; Neighbor-Join and BioNJ algorithms). (Bootstrap values lower than 60% removed).

Fig. S3. B

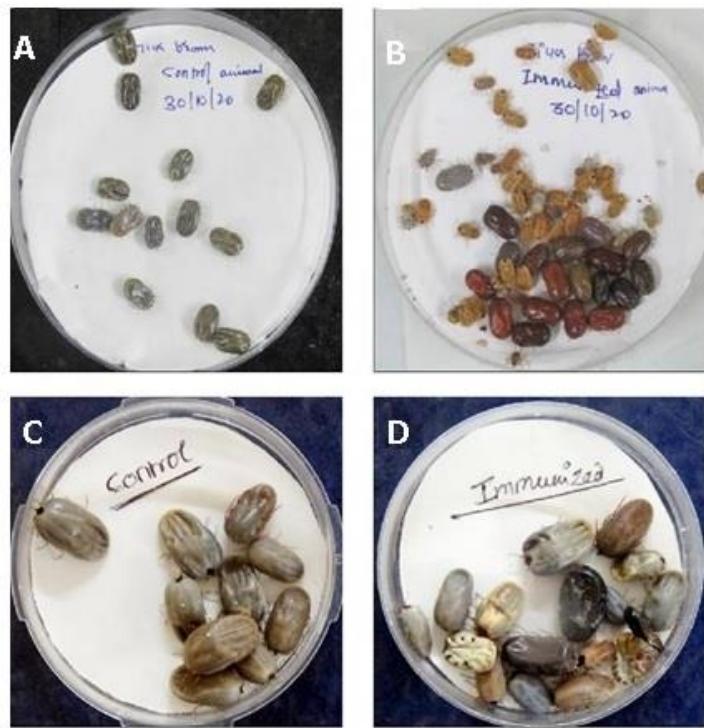

Figure S4. Representative sample of ticks dropped from immunized animals compared to control animals. **A.)** *Hyalomma anatomicum* female dropped from control animals; **B.)** *H. anatomicum* female dropped from immunized animals; **C.)** *Rhipicephalus microplus* female ticks dropped from control animals; and **D.)** *R. microplus* female ticks dropped from immunized animals.

Table S1. Details of PCR primer used in the experiment

Genes	Primer sequence (5'→3')	Length	Amplicon size(bp)	Use
Full length Bm86 gene	Atgcgtggcatcgcttatt gttagcccaactatcttatttgacatc	20 22	1953	Full length
Bm86 gene conserved sequence	Tgcgacagtctgctaagaat Gctgcagcacccatgtacttcca	21 21	578	
SUB (<i>H. anatolicum</i>)	Gaaatccctacgcaccataatg tttagacgagtggttagctggc	20 21	492	For cloning, sequencing and gene conservation study
TPM (<i>H. anatolicum</i>)	atgga(g/t)gccccatcaagaa(g/a)aa(g/a)atgcag gaggcaggtrgaaacaacgc	26 22	901	
	aggctcgagaaaagaatgcgtggcatcgcttgc	36		
Bm86	AgggcggccgttatgcataatctggAACATCATATGGATAATACAGA tgctcggtgc	62	2	
	aggccatggaaaagaatggggccatcaagaaaaagatgcag	42		
TPM	AggggatcccttatgcataatctggAACATCATATGGATAATAGTAGCCAGT gagttcgagaaggt	66	911	For expression of gene in eukaryotic system (Primers with vector flanking region)
	aggctcgagaaaagaatggctgtgcgacattaaag	36		
SUB	AgggcggccgttatgcataatctggAACATCATATGGATAATACGACAA atagctggcgt	62	548	
Bm86	Gaggatcggtttggaaagc Tcctgagcacgttttgac	20 20	133	
EF 1-alpha	cgtctacaagattggcatt Ctcagtggcaggtggcag	22 20	109	For gene quantification (qPCR)
GAPDH	agt ccaccggcg tcttcctca gtgtggttcacacccatcacaa	21 22	123	

Table S2. Field samples of *R. microplus* and *H. anatolicum* collected from different parts of India

States	Districts	Total samples
<i>R. microplus</i> collection areas		
Assam	Nagaon, Barpeta, Kamrup, Sonitpur, Morigaon and Dibrugarh	6
Haryana	Panipat, Kurukshetra, Yamuna Nagar, Kaithal, Ambala, Karnal, Hisar, Fatehabad, Bhiwani, Rohtak and Sonipat	11
Rajasthan	Alwar, Sikar, Churu, Jaipur, Pratapgarh, Bhilwara, Banswara, Udaipur, Chittorgarh, Dungarpur, Dausa and Bharatpur	12
Punjab	Muktsar, Ludhiana, Mansa, Moga and Firozpur	5
Gujarat	Ahmedabad, Jungadh, Porbandar, Jamnagar, Somnath, Bhavnagar and Anand	7
Uttar Pradesh	IVRI-I, IVRI-III, IVRI-IV, IVRI-V, Lucknow, Raebareli and Pilibhit	7
Uttarakhand	Haridwar, Newtehri, Uttarakashi, Dehradun, Almora and Mukteshwar	6
Maharashtra	Jalgaon, Nashik, Dhule, Ahmadnagar, Raigarh, Pune, Aurangabad, Satara and Solapur	9
Madhya Pradesh	Khandwa, Shajapur, Barwani, Mandsaur, Ujjain and Indore	6
<i>H. anatolicum</i> collection areas		
Rajasthan	Sikar, Bikaner, Dausa and Sirohi	4
Gujarat	Jamnagar and Bhavnagar	2
Haryana	Fatehabad, Karnal, Ambala	3
Madhya Pradesh	Shajapur, Barwani and Mandsaur	3
Punjab	Muktsar, Ludhiana and Mansa	3

Table S3. The ratio of IgG to IgG1 and IgG2; and IgG1 to IgG2 responses against different recombinants proteins after immunization

Days of Post Primary Immunization (PPI)	Immunization with rBm86			Immunization with rTPM			Immunization with rSUB		
	IgG:IgG1	IgG:IgG2	IgG1:IgG2	IgG:IgG1	IgG:IgG2	IgG1:IgG2	IgG:IgG1	IgG:IgG2	IgG1:IgG2
15 th day PPI	1.5:1	3.3:1	2.1:1	1.17:1	2.05:1	1.75:1	1.07:1	1.95:1	1.81:1
75 th day PPI	1:1	2.6:1	2.5:1	0.93:1	1.51:1	1.6:1	0.99:1	1.3826:1	1.3844:1
120 th day PPI	0.98:1	1.8:1	1.9:1	0.89:1	1.67:1	1.8:1	1.03:1	1.49:1	1.44:1
