

1. Does your program offer ECMO?
Yes
No
2. Type of ECMO offered
V-V ECMO
V-A ECMO
3. Do you have an ECMO retrieval program, where you cannulate patients at outside hospitals and transport them to your institution?
Yes
No
4. Do you offer ECMO retrievals 24/7?
Yes
No
5. Do you offer both V-V and V-A ECMO retrievals?
Yes
No
6. How many retrievals do you average per year?
<10
10-30
31-50
>50
7. What is the maximum distance that you travel to retrieve patients?
<10 miles
10-100 miles
>100 miles
8. Who performs remote cannulations during retrievals. (you may choose more than one answer)
Cardiothoracic surgeon
Non-CT surgeon
Intensivist
Cardiologist
9. Is the cannulating physician also responsible for management prior to and during transport? If not, who manages the patient prior to arrival to your institution?
10. Who is responsible for patient management while on ECMO at your institution. (You may choose more than one answer)

Cardiothoracic surgeon
Non-CT surgeon
Intensivist
Cardiologist

11. What is the size of your ECMO program?

Low volume (<50)
Medium size (51-100)
High volume (> 100)

12. How would you describe the institution that houses your ECMO program ?

University hospital
University affiliated, community hospital
Private institution
Veteran Administration
