

Autorenregister

Author Index

- Agrawal, P.
SL-24
Gadolinium-labeled PLGA Nanoparticles for Magnetic Resonance Imaging
- Aher, Y. D.
PO-01
Condor@Univie – a Distributed System Web Portal for Rigid & Flexible Ligand-Protein Docking
- Ahrens, G.
PL-03
Targeting Proteinkinases: The Selectivity Problem
- Ajonglefac, A. N.
PO-68
In vitro Antimicrobial Activity of Cameroonian Medicinal Plants on Clinical Isolates of *Helicobacter pylori*: Ageratum conyzoides
- Akoachere, J-F. T. K.
PO-68
In vitro Antimicrobial Activity of Cameroonian Medicinal Plants on Clinical Isolates of *Helicobacter pylori*: Ageratum conyzoides
- Alam, G.
SL-25
Antiasthmatic Compounds Isolated from Antiasthmatic “JAMU” Ingredient Legundi Leaves (*Vitex trifolia* L.)
- Amiri, M.
PO-29
D-Glucosyl-D-xylose: Enzyme-Catalyzed Synthesis of Maltose Analogues
PO-33
Structural Studies with Polysaccharides from *Sterculia urens* and *Sterculia lychnophora*
- Atanasov, A. G.
SL-32
Virtual and Real Screening of Natural Products to Find Effective Modulators of Protein Tyrosine Phosphatase PTP1B
PO-41
Screening for Discovery of Novel Peroxisome Proliferator-Activated Receptor- α and - γ Agonists and Nuclear Factor- κ B Inhibitors by Luciferase Reporter Gene Assays
- PO-43
Resveratrol-Mediated Inhibition of Ang II-Induced Akt Phosphorylation in VSMC – Is it an Antioxidant Activity?
PO-44
Distinct Anti-Migratory Effects of Resveratrol on EGF- *versus* PDGF-Stimulated Vascular Smooth Muscle Cells
PO-46
Growth Factor-Induced Vascular Smooth Muscle Cell Proliferation is Inhibited by Tylophorine
- Aumayr, F.
SL-21
Cells “Feel” Their Surroundings – Implications for Biomedicine and Drug Delivery
- Baburin, I.
PO-26
Honokiol Modulates GABA_A Receptors Subunit Specifically
PO-59
Actein Possesses Strong Sedative and Anxiolytic Effects *in vivo*
- Bauer, R.
SL-26
Falcarinol Content in Carrot Genotypes Determined by LC-MS
Bauer, R.
SL-28
Absolute Bioavailability and Metabolism of Dodeca-2*E*,4*E*,8*E*,10*E/Z*-tetraenoic acid isobutylamides (“tetraene”) after Intravenous and Oral Single Doses to Rats
PO-40
Screening of Chinese Medicinal Plants for Inhibition of COX-2 Gene Expression
PO-42
A Norepinephrine Transporter Assay for the Screening of Natural Products
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
PO-51
Antioxidant Activity of Water Infusions from Selected Plants of TCM and their Qualitative Analysis
- Bauer, S.
PO-67
Ethnopharmacological investigations on *Pluchea odorata* (L.) Cass.

- Baumgartner, R. R.
SL-32
Virtual and Real Screening of Natural Products to Find Effective Modulators of Protein Tyrosine Phosphatase PTP1B
- Belaj, F.
PO-14
SARs of the Antiprotozoal Potency of Diaryl Substituted Bicyclic Bases
- Bennani-Baiti, B.
PO-20
Functionality of P-glycoprotein in the Blood-Brain Barrier Mimicking Cell Line PBMEC/C1-2
- Berger, H.
PO-14
SARs of the Antiprotozoal Potency of Diaryl Substituted Bicyclic Bases
- Berner, D.
PO-33
Structural Studies with Polysaccharides from *Sterculia urens* and *Sterculia lychnophora*
- Birošová, L.
PO-17
Antimicrobial and Antimutagenic Properties of Newly Synthesized Derivatives of Indolizine
PO-48
Connection Between Compounds Presented in Food and Ciprofloxacin Resistance
PO-49
Antimicrobial Activity of Essential Oils from Selected Aromatic Plants Growing under Different Soil and Climate Conditions
PO-62
Study of Qualitative Characteristics of Essential Oil from Selected Species of the *Tanacetum* L. Genus
- Bisio, A.
PO-16
Antispasmodic Activity of Semi-Synthetic Secoisopimarane Deriva
PO-37
Microspheres Containing Carnosic Acid for the Treatment of Basil Fungal Diseases
PO-60
Further New Diterpenoids from *Salvia miniata* Fernald (Lamiaceae)
- Blunder, M.
PO-42
A Norepinephrine Transporter Assay for the Screening of Natural Products
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
- Boechzelt, H.
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
- Böhme, S.
SL-16
Improved "General Unknown" Drug Screening Using GCxGCqMS
- Borchard, G.
SL-23
Differences in the Glycocalyx of 5637 and SV-HUC-1 Cells and their Impact on Lectin Targeting
- Böttcher, M.
SL-16
Improved "General Unknown" Drug Screening Using GCxGCqMS
- Bresgen, N.
PO-69
In vitro Evaluation of the Hepatotoxic Potential of Aqueous and Methanolic Extracts of *Myricaria longifolia*
- Britzmann, B.
PO-56
Lignans as New Compounds in *Mentzelia scabra subsp. chilensis*
- Brunhofer, G.
PO-22
Pharmacological Profile of Novel Dithiodibenzamides
- Bruno, O.
PO-16
Antispasmodic Activity of Semi-Synthetic Secoisopimarane Deriva
- Bucar, F.
PO-56
Lignans as New Compounds in *Mentzelia scabra subsp. chilensis*
PO-61
GC-MS Analysis of *Rosmarinus officinalis* L. Leaves and Infusion

- Buděšínský, M.
PO-53
Steroidal Saponins from the bulbs of *Lilium candidum* L.
- Butterweck, V.
SL-28
Absolute Bioavailability and Metabolism of Dodeca-2*E*,4*E*,8*E*,10*E/Z*-tetraenoic acid isobutylamides ("tetraene") after Intravenous and Oral Single Doses to Rats
- Buzzi, S.
PO-24
Large-Scale Synthesis of Dihydroartemisinin and Artesunate
- Cafaggi, S.
PO-37
Microspheres Containing Carnosic Acid for the Treatment of Basil Fungal Diseases
PO-60
Further New Diterpenoids from *Salvia miniata* Fernald (Lamiaceae)
- Caviglioli, G.
PO-37
Microspheres Containing Carnosic Acid for the Treatment of Basil Fungal Diseases
- Chesne, C.
SL-19
Evaluation of a Blood-Brain Barrier *in vitro* Model Based on Primary Rat Cells
- Chiba, P.
PO-05
Ligand Docking of Propafenones into a Homology Model of ABCB1
- Chirari, C.
PO-38
Gene Regulatory Effects of Sappan lignum Extract in a Cell Model of Joint Inflammation
- Colucci, M.
PO-16
Antispasmodic Activity of Semi-Synthetic Secoisopimarane Deriva
- Cvačka, P.
PO-53
Steroidal Saponins from the bulbs of *Lilium candidum* L.
- Czaloun, C.
PO-45
Indirubine-3-Monoxime Inhibits PDGF-Mediated Vascular Smooth Muscle Cell Migration
- De Tommasi, N.
PO-16
Antispasmodic Activity of Semi-Synthetic Secoisopimarane Deriva
PO-60
Further New Diterpenoids from *Salvia miniata* Fernald (Lamiaceae)
- Demel, M. A.
SL-20
Identification of Privileged Atom-Types in Substrates of the ABC-Transporter ABCB1 (P-gp) by Random Forest Classification
PO-01
Condor@Univie – a Distributed System Web Portal for Rigid & Flexible Ligand-Protein Docking
- Derendorf, H.
SL-28
Absolute Bioavailability and Metabolism of Dodeca-2*E*,4*E*,8*E*,10*E/Z*-tetraenoic acid isobutylamides ("tetraene") after Intravenous and Oral Single Doses to Rats
- Digles, D.
PO-03
Ligand Based Screening Tools for Insulin Receptor Activating Compounds
- Dirin, M.
PO-18
Synthesis of a Building Block for Oligopeptide-Oligonucleotide Conjugates
- Dirsch, V. M.
SL-31
Austrian Red Wine Samples Reveal Enhanced Activity of the Enzyme Endothelial Nitric Oxide Synthase
Dirsch, V. M.
SL-32
Virtual and Real Screening of Natural Products to Find Effective Modulators of Protein Tyrosine Phosphatase PTP1B
PO-03
Ligand Based Screening Tools for Insulin Receptor Activating Compounds

- PO-41
Screening for Discovery of Novel Peroxisome Proliferator-Activated Receptor- α and - γ Agonists and Nuclear Factor- κ B Inhibitors by Luciferase Reporter Gene Assays
Dirsch, V. M.
- PO-43
Resveratrol-Mediated Inhibition of Ang II-Induced Akt Phosphorylation in VSMC – Is it an Antioxidant Activity?
- PO-44
Distinct Anti-Migratory Effects of Resveratrol on EGF- *versus* PDGF-Stimulated Vascular Smooth Muscle Cells
- PO-45
Indirubine-3-Monoxime Inhibits PDGF-Mediated Vascular Smooth Muscle Cell Migration
- PO-46
Growth Factor-Induced Vascular Smooth Muscle Cell Proliferation is Inhibited by Tylophorine
- Dissauer, S.
SL-11
An Acoustically-Driven Biochip: Particle-Cell Interactions Under Physiological Flow Conditions
- Dittrich, M.
PO-35
Branched Oligoesters as Adhesive Carriers of Drugs
- Dobeš, C.
PO-65
Karyogeography and Hybrid Origin of European *Potentilla* species (Rosaceae)
- Donath, O.
SL-31
Austrian Red Wine Samples Reveal Enhanced Activity of the Enzyme Endothelial Nitric Oxide Synthase
- Dörner, B.
PO-09
Enantioseparation with Capillary Electrophoresis (CE) as Evidence of Chirality Retention during Kolbe Electrolysis of Amino Acids
- PO-10
Kolbe Electrolysis as a Novel Way of Generating Non-Proteinogenic Amino Acids
- Drach, J.
PL-05
From Gene- and Protein Expression Patterns to Biological Mechanisms: -omics in Pharmacology and Toxicology
C. Gerner,
- Duric, K.
PO-57
Investigation of Flavonoids Presence in Houseleek, *Sempervivum tectorum* L.
- Ecker G. F.
SL-14
Using Multiple Approaches in Docking Pose Evaluation – Application to the GABA_A Receptor
- SL-20
Identification of Privileged Atom-Types in Substrates of the ABC-Transporter ABCB1 (P-gp) by Random Forest Classification
- PO-01
Condor@Univie – a Distributed System Web Portal for Rigid & Flexible Ligand-
- PO-02
QSAR, HQSAR and GRIND Studies on a Set of Heterocyclic Propafenone-Type Inhibitors of P-Glycoprotein
- PO-03
Ligand Based Screening Tools for Insulin Receptor Activating Compounds
- PO-04
Induced Fit Docking into a SERT Homology Model
- PO-05
Ligand Docking of Propafenones into a Homology Model of ABCB1
- PO-06
Docking of Multiple Ligands into a New Homology Model of the Serotonin Transporter
- PO-07
Docking into Symmetric Binding Sites: Problems and Solutions Exemplified on the hERG Potassium Channel
- PO-08
SIBAR Descriptors and Support Vector Machine for ABCB1 Substrate Prediction
- PO-27
Ligand Determinants of Drug Trapping in hERG Potassium Channels
- Eckl, P. M.
PO-69
In vitro Evaluation of the Hepatotoxic Potential of Aqueous and Methanolic Extracts of *Myricaria longifolia*

- Eder, R.
SL-31
Austrian Red Wine Samples Reveal
Enhanced Activity of the Enzyme
Endothelial Nitric Oxide Synthase
- Efange, S. M. N.
PO-68
In vitro Antimicrobial Activity of
Cameroonian Medicinal Plants on Clinical
Isolates of *Helicobacter pylori*: Ageratum
conyzoides
- Efferth, T.
PO-47
Activity-Guided Isolation of Anti-Tumor
Compounds from *Saussurea lappa* Clarke
- Eisenreichová, E.
PO-53
Steroidal Saponins from the bulbs of
Lilium candidum L.
- Eloff, J. N.
SL-06
LC-MS-MS Can Distinguish Between
Toxic and Non-Toxic Pyrrolizidine
Alkaloids in Plants
- Erker, T.
PO-22
Pharmacological Profile of Novel
Dithiodibenzamides
PO-43
Resveratrol-Mediated Inhibition of Ang II-
Induced Akt Phosphorylation in VSMC –
Is it an Antioxidant Activity?
- Ernst, M.
SL-14
Using Multiple Approaches in Docking
Pose Evaluation – Application to the
GABA_A Receptor
- Ettmayer, P.
SL-20
Identification of Privileged Atom-Types in
Substrates of the ABC-Transporter
ABCB1 (P-gp) by Random Forest
Classification
- Faist, J.
PO-13
Bicyclic Amides and Esters of
Dialkylamino Acids with Antiplasmodial
Activity
- Faist, J.
PO-15
Antitrypanosomal Activity of 4-
Aminobicyclo[2.2.2]octane Derivatives
- Fakhrudin, N.
PO-41
Screening for Discovery of Novel
Peroxisome Proliferator-Activated
Receptor- α and - γ Agonists
and Nuclear Factor- κ B Inhibitors by
Luciferase Reporter Gene Assays
- Fattal, E.
PL-04
Nanotechnologies for the Delivery of
Nucleic Acids and Contrast Agents
- Faust, N.
SL-15
Nucleofection® & other Technologies
Enabling Advances in Pharmaceutical
Research
- Fialová, S.
PO-51
Antioxidant Activity of Water Infusions
from Selected Plants of TCM and their
Qualitative Analysis
PO-63
Anatomical and Phytochemical
Differentiation of *Mentha* species
- Fillafer, C.
SL-11
An Acoustically-Driven Biochip: Particle-
Cell Interactions Under Physiological
Flow Conditions
SL-22
Influence of Microplate Mixing on Binding
Assays
- Fraternale, D.
PO-60
Further New Diterpenoids from *Salvia
miniata* Fernald (Lamiaceae)
- Freidl, M.
PO-19
Functionability of NMDA-Receptors in an
in vitro model of the Blood-Brain-Barrier

- Freissmuth, M.
PO-04
Induced Fit Docking into a SERT Homology Model
PO-06
Docking of Multiple Ligands into a New Homology Model of the Serotonin Transporter
- Friedl, S. M.
SL-17
Inside the Brain: Fragrance Effects on Human Attention
- Fritz, E.
PO-66
Line of Breakage in the Testa of Seeds of Various Species of the Genus *Senna*
- Frye, R.
SL-28
Absolute Bioavailability and Metabolism of Dodeca-2*E*,4*E*,8*E*,10*E/Z*-tetraenoic acid isobutylamides ("tetraene") after Intravenous and Oral Single Doses to Rats
- Gabor F.
SL-11
An Acoustically-Driven Biochip: Particle-Cell Interactions Under Physiological Flow Conditions
SL-12
Pluronic® F-68 Enhances the Nanoparticle-Cell Interaction
SL-21
Cells "Feel" Their Surroundings – Implications for Biomedicine and Drug Delivery
SL-22
Influence of Microplate Mixing on Binding Assays
SL-23
Differences in the Glycocalyx of 5637 and SV-HUC-1 Cells and their Impact on Lectin Targeting
SL-24
Gadolinium-labeled PLGA Nanoparticles for Magnetic Resonance Imaging
PO-19
Functionality of NMDA-Receptors in an *in vitro* model of the Blood-Brain-Barrier
PO-20
Functionality of P-glycoprotein in the Blood-Brain Barrier Mimicking Cell Line PBMEC/C1-2
- PO-36
Impact of Stabilizer Concentration on the Surface Functionalization of PLGA Particles
PO-38
Gene Regulatory Effects of Sappan lignum Extract in a Cell Model of Joint Inflammation
- Gansterer, W. N.
PO-01
Condor@Univie – a Distributed System Web Portal for Rigid & Flexible Ligand-Protein Docking
- Gebeshuber, I. C.
SL-21
Cells "Feel" Their Surroundings – Implications for Biomedicine and Drug Delivery
- Gerner, C.
PL-05
From Gene- and Protein Expression Patterns to Biological Mechanisms: -omics in Pharmacology and Toxicology
- Gesslbauer, J.
PO-43
Resveratrol-Mediated Inhibition of Ang II-Induced Akt Phosphorylation in VSMC – Is it an Antioxidant Activity?
- Ghirlanda, S.
SL-07
Speeding Up Pharmaceutical U-HPLC Method Development with an Integrated, Ultrafast Automated Method Scouting Solution
- Glasl, S.
PO-69
In vitro Evaluation of the Hepatotoxic Potential of Aqueous and Methanolic Extracts of *Myricaria longifolia*
PO-70
Uterus activity of the Mongolian Medicinal Plant *Dianthus versicolor* Fisch.
- Gößnitzer, E.
PO-23
Design and Synthesis of 23-Amino-24,25,26,27-tetrakisnorlanosterolacetate and Derivatives as New Antimycotic Agents

- Gotsbacher, M.
SL-27
Reverse Chemical Proteomics in Drug Discovery
- Grančai, D.
PO-51
Antioxidant Activity of Water Infusions from Selected Plants of TCM and their Qualitative Analysis
PO-53
Steroidal Saponins from the bulbs of *Lilium candidum* L.
PO-63
Anatomical and Phytochemical Differentiation of *Mentha* species
- Granig, W. H.
PO-22
Pharmacological Profile of Novel Dithiodibenzamides
- Griesmacher, A.
SL-03
How to Deal with Ion Suppression – the Foe of HPLC-MS/MS
- Gruber, D.
SL-19
Evaluation of a Blood-Brain Barrier *in vitro* Model Based on Primary Rat Cells
- Gübitz, G.
SL-01
New Selectors Based on Ligand-Exchange for Enantioseparation by Capillary Electrophoresis
- Gusenleitner, S.
PO-40
Screening of Chinese Medicinal Plants for Inhibition of COX-2 Gene Expression
- Haaksma, E. E. J.
SL-20
Identification of Privileged Atom-Types in Substrates of the ABC-Transporter ABCB1 (P-gp) by Random Forest Classification
- Habán, M.
PO-62
Study of Qualitative Characteristics of Essential Oil from Selected Species of the *Tanacetum* L. Genus
- Haladová, M.
PO-53
Steroidal Saponins from the bulbs of *Lilium candidum* L.
- Halwachs, L.
PO-28
Reproducible saliva collection as basis for cotinine testing in oral fluid
- Hamburger, M.
PO-26
Honokiol Modulates GABA_A Receptors Subunit Specifically
- Hao, X. J.
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
- Hasanovic, A.
SL-09
Increased Skin Permeation of Acyclovir by Incorporation into Chitosan-Tripolyphosphate Nanoparticles
- Hauser, S.
PO-12
Determination of Resveratrol by Using Carbon Paste Electrodes
- Heilmann, J.
PO-51
Antioxidant Activity of Water Infusions from Selected Plants of TCM and their Qualitative Analysis
- Heiss, E. H.
SL-32
Virtual and Real Screening of Natural Products to Find Effective Modulators of Protein Tyrosine Phosphatase PTP1B
PO-41
Screening for Discovery of Novel Peroxisome Proliferator-Activated Receptor- α and - γ Agonists and Nuclear Factor- κ B Inhibitors by Luciferase Reporter Gene Assays
PO-43
Resveratrol-Mediated Inhibition of Ang II-Induced Akt Phosphorylation in VSMC – Is it an Antioxidant Activity?
PO-44
Distinct Anti-Migratory Effects of Resveratrol on EGF- *versus* PDGF-Stimulated Vascular Smooth Muscle Cells

- PO-45
Indirubine-3-Monoxime Inhibits PDGF-Mediated Vascular Smooth Muscle Cell Migration
- PO-46
Growth Factor-Induced Vascular Smooth Muscle Cell Proliferation is Inhibited by Tylophorine
- Henkel, A.
PO-39
Identification of LL-37 as a Molecular Target for Boswellic Acids
- Hering, J.
PL-03
Targeting Protein Kinases: The Selectivity Problem
- Hering, S.
PO-07
Docking into Symmetric Binding Sites: Problems and Solutions Exemplified on the hERG Potassium Channel
- PO-26
Honokiol Modulates GABA_A Receptors Subunit Specifically
- PO-27
Ligand Determinants of Drug Trapping in hERG Potassium Channels
- PO-59
Actein Possesses Strong Sedative and Anxiolytic Effects *in vivo*
- Herrmann, H.
SL-07
Speeding Up Pharmaceutical U-HPLC Method Development with an Integrated, Ultrafast Automated Method Scouting Solution
- Heuberger, E.
SL-17
Inside the Brain: Fragrance Effects on Human Attention
- SL-18
Behavioral and Endocrine Effects of Essential Oils in Humans
- Hödl, H.
SL-01
New Selectors Based on Ligand-Exchange for Enantioseparation by Capillary Electrophoresis
- Höferl, M.
SL-18
Behavioral and Endocrine Effects of Essential Oils in Humans
- Hohaus, A.
PO-27
Ligand Determinants of Drug Trapping in hERG Potassium Channels
- Holzer, W.
PO-02
QSAR, HQSAR and GRIND Studies on a Set of Heterocyclic Propafenone-Type Inhibitors of P-Glycoprotein
- Hüfner, A.
PO-25
Synthesis of Deuterated Analogs of Honokiol
- I. Andriik,
SL-12
Pluronic® F-68 Enhances the Nanoparticle-Cell Interaction
- Ikawati, Z.
SL-25
Antiasthmatic Compounds Isolated from Antiasthmatic "JAMU" Ingredient Legundi Leaves (*Vitex trifolia* L.)
- Jabeen, I.
PO-02
QSAR, HQSAR and GRIND Studies on a Set of Heterocyclic Propafenone-Type Inhibitors of P-Glycoprotein
- Jäger, W.
SL-29
Expression of Organic Anion Transporter Polypeptides (OATPs) in Human Breast Carcinoma
- SL-30
Expression of Sulfotransferases and Sulfatases in Human Breast Cancer: Impact on Resveratrol Metabolism
- Joa, H.
PO-46
Growth Factor-Induced Vascular Smooth Muscle Cell Proliferation is Inhibited by Tylophorine
- Jurik, A.
PO-04
Induced Fit Docking into a SERT Homology Model

- Kahl, S.
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
- Kählig, H.
PO-58
Glycosides of Phenolic Acids from *Metaxya rostrata* (Kunth C. Presl)
- Kainrath, J.
PO-64
Morphological and Anatomical Characterisation of *Athyrium distentifolium*, *A. filix-femina* and *Dryopteris dilatata*
- Kainz, K. P.
PO-58
Glycosides of Phenolic Acids from *Metaxya rostrata* (Kunth C. Presl)
- Karcher, S.
PL-03
Targeting Protein Kinases: The Selectivity Problem
- Karuso, P.
SL-27
Reverse Chemical Proteomics in Drug Discovery
- Khom, S.
PO-59
Actein Possesses Strong Sedative and Anxiolytic Effects *in vivo*
- Klang, V.
SL-10
Cyclodextrins as Natural Co-Stabilising Agents in Submicron Emulsions
- Klepal, W.
SL-19
Evaluation of a Blood-Brain Barrier *in vitro* Model Based on Primary Rat Cells
- Klepsch, F.
PO-05
Ligand Docking of Propafenones into a Homology Model of ABCB1
- Kletter, C.
PO-69
In vitro Evaluation of the Hepatotoxic Potential of Aqueous and Methanolic Extracts of *Myricaria longifolia*
PO-70
Uterus activity of the Mongolian Medicinal Plant *Dianthus versicolor* Fisch.
- Kontšeková, Z.
PO-50
Determination of Antioxidant Activity and Related Compounds of Various Infusions from *Ligustrum delavayanum* Hariot.
- Kopp, B.
PO-41
Screening for Discovery of Novel Peroxisome Proliferator-Activated Receptor- α and - γ Agonists and Nuclear Factor- κ B Inhibitors by Luciferase Reporter Gene Assays
- Körner, W.
SL-24
Gadolinium-labeled PLGA Nanoparticles for Magnetic Resonance Imaging
- Kovac-Besovic, E. E.
PO-57
Investigation of Flavonoids Presence in Houseleek, *Sempervivum tectorum* L.
- Krämer, O.
SL-20
Identification of Privileged Atom-Types in Substrates of the ABC-Transporter ABCB1 (P-gp) by Random Forest Classification
- Krasteva, S. M.
SL-13
Validation of Fluorimetric Assay of Histone Deacetylase for Inhibitors from Plant Origin
- Kratzel, M.
PO-09
Enantioseparation with Capillary Electrophoresis (CE) as Evidence of Chirality Retention during Kolbe Electrolysis of Amino Acids
PO-10
Kolbe Electrolysis as a Novel Way of Generating Non-Proteinogenic Amino Acids

- Krenn, L.
SL-13
Validation of Fluorimetric Assay of Histone Deacetylase for Inhibitors from Plant Origin
PO-58
Glycosides of Phenolic Acids from *Metaxya rostrata* (Kunth C. Presl)
- Kretschmer, N.
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
- Krupitza, G.
PO-67
Ethnopharmacological investigations on *Pluchea odorata* (L.) Cass.
- Kuffner, H. U.
SL-08
UPLC Analysis of Herbal Plant Extracts
- Kumerz, M.
PO-43
Resveratrol-Mediated Inhibition of Ang II-Induced Akt Phosphorylation in VSMC – Is it an Antioxidant Activity?
PO-44
Distinct Anti-Migratory Effects of Resveratrol on EGF- versus PDGF-Stimulated Vascular Smooth Muscle Cells
- Kunert, O.
SL-26
Falcarinol Content in Carrot Genotypes Determined by LC-MS
PO-47
Activity-Guided Isolation of Anti-Tumor Compounds from *Saussurea lappa* Clarke
PO-56
Lignans as New Compounds in *Mentzelia scabra* subsp. *chilensis*
- Lachmann, B.
PO-09
Enantioseparation with Capillary Electrophoresis (CE) as Evidence of Chirality Retention during Kolbe Electrolysis of Amino Acids
PO-11
Comparison of Different Staining Methods and Software Evaluation Tools for 2DE Gel Electrophoresis
- Laciková, Ľ.
PO-51
Antioxidant Activity of Water Infusions from Selected Plants of TCM and their Qualitative Analysis
- Laistler, E.
SL-17
Inside the Brain: Fragrance Effects on Human Attention
- Lämmerhofer, M.
SL-02
HPLC-ESI-MS/MS Assay for Quantitative Metabolic Profiling in Fermentation Broths from β -Lactam Antibiotics Production
- Länger, U.
PO-36
Impact of Stabilizer Concentration on the Surface Functionalization of PLGA Particles
- Lass, A.
PO-42
A Norepinephrine Transporter Assay for the Screening of Natural Products
- Laufer, S.
PL-03
Targeting Protein Kinases: The Selectivity Problem
- Lee, D. U.
PO-54
Isolation and Synthesis of Trimethylcitril Galactopyranoside, a New Component from *Gastrodia elata* and its Inhibitory Effect on GABA Transaminase
- Leichtfried, D.
PO-28
Reproducible saliva collection as basis for cotinine testing in oral fluid
- Lemmens-Gruber, R.
PO-70
Uterus activity of the Mongolian Medicinal Plant *Dianthus versicolor* Fisch.
- Lindner, W.
SL-02
HPLC-ESI-MS/MS Assay for Quantitative Metabolic Profiling in Fermentation Broths from β -Lactam Antibiotics Production

- Lubura, B.
PO-30
Carbohydrate Derived Azides as
Substrates for Cellobiose Phosphorylase
from *Clostridium Thermocellum*
- Luma, H. N.
PO-68
In vitro Antimicrobial Activity of
Cameroonian Medicinal Plants on Clinical
Isolates of *Helicobacter pylori*: Ageratum
conyzoides
- Maeyama, K.
SL-25
Antiasthmatic Compounds Isolated from
Antiasthmatic "JAMU" Ingredient Legundi
Leaves (*Vitex trifolia* L.)
- Mandikova, J.
PO-20
Functionality of P-glycoprotein in the
Blood-Brain Barrier Mimicking Cell Line
PBMEC/C1-2
- Mascolo, N.
PO-16
Antispasmodic Activity of Semi-Synthetic
Secoisopimarane Deriva
- Mašterová, I.
PO-51
Antioxidant Activity of Water Infusions
from Selected Plants of TCM and their
Qualitative Analysis
- Mastriota, M.
PO-16
Antispasmodic Activity of Semi-Synthetic
Secoisopimarane Deriva
- Mbulla, S. M.
PO-68
In vitro Antimicrobial Activity of
Cameroonian Medicinal Plants on Clinical
Isolates of *Helicobacter pylori*: Ageratum
conyzoides
- Micksche, M.
PL-05
From Gene- and Protein Expression
Patterns to Biological Mechanisms: -
omics in Pharmacology and Toxicology
- Miksits, M.
SL-30
Expression of Sulfotransferases and
Sulfatases in Human Breast Cancer:
Impact on Resveratrol Metabolism
- Mikulášová, M.
PO-49
Antimicrobial Activity of Essential Oils
from Selected Aromatic Plants Growing
under Different Soil and Climate
Conditions
PO-62
Study of Qualitative Characteristics of
Essential Oil from Selected Species of the
Tanacetum L. Genus
- Minuto, G.
PO-37
Microspheres Containing Carnosic Acid
for the Treatment of Basil Fungal
Diseases
- Mobbs, K. J.
SL-15
Nucleofection® & other Technologies
Enabling Advances in Pharmaceutical
Research
- Mohr, T.
PL-05
From Gene- and Protein Expression
Patterns to Biological Mechanisms: -
omics in Pharmacology and Toxicology
C. Gerner,
- Moser, E.
SL-17
Inside the Brain: Fragrance Effects on
Human Attention
- Motyl, M.
PO-51
Antioxidant Activity of Water Infusions
from Selected Plants of TCM and their
Qualitative Analysis
- Mučaji, P.
PO-50
Determination of Antioxidant Activity and
Related Compounds of Various Infusions
from *Ligustrum delavayanum* Hariot.
PO-53
Steroidal Saponins from the bulbs of
Lilium candidum L.

- Nagy, M.

PO-12
Determination of Resveratrol by Using
Carbon Paste Electrodes
- Otto, N.
PO-40
Screening of Chinese Medicinal Plants for
Inhibition of COX-2 Gene Expression
- Parodi, B.
PO-37
Microspheres Containing Carnosic Acid
for the Treatment of Basil Fungal
Diseases
- Paule, J.
PO-65
Karyogeography and Hybrid Origin of
European *Potentilla* species (Rosaceae)
- Paulitschke, V.
PL-05
From Gene- and Protein Expression
Patterns to Biological Mechanisms: -
omics in Pharmacology and Toxicology
- Pawlowitsch, R.
PO-20
Functionality of P-glycoprotein in the
Blood-Brain Barrier Mimicking Cell Line
PBMEC/C1-2
- Pferschy-Wenzig, E. M.
SL-26
Falcarinol Content in Carrot Genotypes
Determined by LC-MS
PO-51
Antioxidant Activity of Water Infusions
from Selected Plants of TCM and their
Qualitative Analysis
- Pfisterer, P. H.
Discovery of Chemosensitizing
Flavonoids from *Eriobotrya japonica*
Using *in silico* and HPLC-SPE-NMR
Techniques
- Phrutivorapongkul, A.
PO-38
Gene Regulatory Effects of Sappan
lignum Extract in a Cell Model of Joint
Inflammation
- Picker, P.
PO-41
Screening for Discovery of Novel
Peroxisome Proliferator-Activated
Receptor- α and - γ Agonists
and Nuclear Factor- κ B Inhibitors by
Luciferase Reporter Gene Assays
- Pieretti, S.
PO-16
Antispasmodic Activity of Semi-Synthetic
Secoisopimarane Deriva
- Pittner, F.
PO-36
Impact of Stabilizer Concentration on the
Surface Functionalization of PLGA
Particles
- Plagens, B.
PO-02
QSAR, HQSAR and GRIND Studies on a
Set of Heterocyclic Propafenone-Type
Inhibitors of P-Glycoprotein
- Plattner, V. E.
SL-23
Differences in the Glycocalyx of 5637 and
SV-HUC-1 Cells and their Impact on
Lectin Targeting
- Pölzl, A.
PO-23
Design and Synthesis of 23-Amino-
24,25,26,27-tetrakisnorlanosterolacetate
and Derivatives as New Antimycotic
Agents
- Popescu, R.
PO-67
Ethnopharmacological investigations on
Pluchea odorata (L.) Cass.
- Preinerstorfer, B.
SL-02
HPLC-ESI-MS/MS Assay for Quantitative
Metabolic Profiling in Fermentation Broths
from β -Lactam Antibiotics Production
PM. Lämmerhofer,

- Presser, A.
PO-24
Large-Scale Synthesis of
Dihydroartemisinin and Artesunate
- Proksch, P.
PO-46
Growth Factor-Induced Vascular Smooth
Muscle Cell Proliferation is Inhibited by
Tylophorine
- Rabenreither, M. C.
PO-31
Effect Of Stress on Cellular Properties of
Enterococcus Faecium
- Ratzinger, G.

An Acoustically-Driven Biochip: Particle-
Cell In-teractions Under Physiological
Flow Conditions
SL-24
Gadolinium-labeled PLGA Nanoparticles
for Magnetic Resonance Imaging
PO-36
Impact of Stabilizer Concentration on the
Surface Functionalization of PLGA
Particles
- Rawnduzi, P.
PO-70
Uterus activity of the Mongolian Medicinal
Plant *Dianthus versicolor* Fisch.
- Reznicek, G.
SL-31
Austrian Red Wine Samples Reveal
Enhanced Activity of the Enzyme
Endothelial Nitric Oxide Synthase
PO-41
Screening for Discovery of Novel
Peroxisome Proliferator-Activated
Receptor-alpha and -gamma Agonists
and Nuclear Factor- κ B Inhibitors by
Luciferase Reporter Gene Assays
- Ricci, D.
PO-60
Further New Diterpenoids from *Salvia
miniata* Fernald (Lamiaceae)
- Richter, L.
SL-14
Using Multiple Approaches in Docking
Pose Evaluation – Application to the
GABA_A Receptor
PO-07
Docking into Symmetric Binding Sites:
Problems and Solutions Exemplified on
the hERG Potassium Channel
- Rollinger, J. M.
SL-05
Discovery of Chemosensitizing
Flavonoids from *Eriobotrya japonica*
Using *in silico* and HPLC-SPE-NMR
Techniques
SL-32
Virtual and Real Screening of Natural
Products to Find Effective Modulators of
Protein Tyrosine Phosphatase PTP1B
- Romussi, A.
PO-16
Antispasmodic Activity of Semi-Synthetic
Secoisopimarane Derivatives
- Romussi, G.
PO-37
Microspheres Containing Carnosic Acid
for the Treatment of Basal Fungal
Diseases
PO-60
Further New Diterpenoids from *Salvia
miniata* Fernald (Lamiaceae)
- Rösemann, M.
SL-06
LC-MS-MS Can Distinguish Between
Toxic and Non-Toxic Pyrrolizidine
Alkaloids in Plants
- Roskothen, I.
PO-59
Actein Possesses Strong Sedative and
Anxiolytic Effects *in vivo*
- Rudy, A.
SL-05
Discovery of Chemosensitizing
Flavonoids from *Eriobotrya japonica*
Using *in silico* and HPLC-SPE-NMR
Techniques

- Russo, E.
PO-37
Microspheres Containing Carnosic Acid for the Treatment of Basil Fungal Diseases
PO-60
Further New Diterpenoids from *Salvia miniata* Fernald (Lamiaceae)
- Saber, Y.
PO-30
Carbohydrate Derived Azides as Substrates for Cellobiose Phosphorylase from *Clostridium Thermocellum*
- Salar-Behzadi, S.
PO-31
Effect Of Stress on Cellular Properties of *Enterococcus Faecium*
PO-32
Natural Polymers as Excipients for Formulation Development
- Šarić-Kundalić, B.
PO-63
Anatomical and Phytochemical Differentiation of *Mentha* species
- Sarker, S.
PO-04
Induced Fit Docking into a SERT Homology Model
- Saukel, J.
PO-41
Screening for Discovery of Novel Peroxisome Proliferator-Activated Receptor-alpha and -gamma Agonists and Nuclear Factor-κB Inhibitors by Luciferase Reporter Gene Assays
PO-63
Anatomical and Phytochemical Differentiation of *Mentha* species
PO-64
Morphological and Anatomical Characterisation of *Athyrium distentifolium*, *A. filix-femina* and *Dryopteris dilatata*
PO-66
Line of Breakage in the Testa of Seeds of Various Species of the Genus *Senna*
- Schellmann, D.
PO-22
Pharmacological Profile of Novel Dithiodibenzamides
- Scherbantin, A.
PO-65
Karyogeography and Hybrid Origin of European *Potentilla* species (Rosaceae)
- Schiesaro, A.
PO-07
Docking into Symmetric Binding Sites: Problems and Solutions Exemplified on the hERG Potassium Channel
PO-27
Ligand Determinants of Drug Trapping in hERG Potassium Channels
- Schiesel, S.
SL-02
HPLC-ESI-MS/MS Assay for Quantitative Metabolic Profiling in Fermentation Broths from β-Lactam Antibiotics Production
PM. Lämmerhofer,
- Schmid, M. G.
SL-01
New Selectors Based on Ligand-Exchange for Enantioseparation by Capillary Electrophoresis
- Schmid, R. W.
PO-28
Reproducible saliva collection as basis for cotinine testing in oral fluid
- Schnattinger, B.
PO-64
Morphological and Anatomical Characterisation of *Athyrium distentifolium*, *A. filix-femina* and *Dryopteris dilatata*
- Schneider, M.
SL-11
An Acoustically-Driven Biochip: Particle-Cell In-teractions Under Physiological Flow Conditions
SL-12
Pluronic® F-68 Enhances the Nanoparticle-Cell Interaction
- Schneider, P.
SL-05
Discovery of Chemosensitizing Flavonoids from *Eriobotrya japonica* Using *in silico* and HPLC-SPE-NMR Techniques
PO-55
Analysis of *Citrullus colocynthis* Cucurbitacine Derivatives with HPLC-SPE-NMR

- Schreiner, C. E.
PO-43
Resveratrol-Mediated Inhibition of Ang II-Induced Akt Phosphorylation in VSMC – Is it an Antioxidant Activity?
- Schühly, W.
PO-25
Synthesis of Deuterated Analogs of Honokiol
PO-26
Honokiol Modulates GABA_A Receptors Subunit Specifically
PO-42
A Norepinephrine Transporter Assay for the Screening of Natural Products
- Schuster, D.
SL-32
Virtual and Real Screening of Natural Products to Find Effective Modulators of Protein Tyrosine Phosphatase PTP1B
- Schwaha, R.
PO-08
SIBAR Descriptors and Support Vector Machine for ABCB1 Substrate Prediction
- Schwarzer, C.
PO-59
Actein Possesses Strong Sedative and Anxiolytic Effects *in vivo*
- Seebacher, W.
PO-13
Bicyclic Amides and Esters of Dialkylamino Acids with Antiplasmodial Activity
PO-14
SARs of the Antiprotozoal Potency of Diaryl Substituted Bicyclic Bases
PO-15
Antitrypanosomal Activity of 4-Aminobicyclo[2.2.2]octane Derivatives
- Seeger, C.
SL-03
How to Deal with Ion Suppression – the Foe of HPLC-MS/MS
PO-55
Analysis of *Citrullus colocynthis* Cucurbitacine Derivatives with HPLC-SPE-NMR
- Sieghart, W.
SL-14
Using Multiple Approaches in Docking Pose Evaluation – Application to the GABA_A Receptor
- Singhuber, J.
PO-67
Ethnopharmacological investigations on *Pluchea odorata* (L.) Cass.
- Sitte, H. H.
PO-04
Induced Fit Docking into a SERT Homology Model
PO-06
Docking of Multiple Ligands into a New Homology Model of the Serotonin Transporter
- Šklubalová, Z.
PO-34
Cellulose Derivatives: Optimization of Regression Equation to Predict Viscosity of Aqueous Solutions
- Slany, A.
PL-05
From Gene- and Protein Expression Patterns to Biological Mechanisms: -omics in Pharmacology and Toxicology
C. Gerner,
- Šnejdrová, E.
