

Table S1. Summary of *p* values from Dunnett test indicating significance (values in bold) of differences in amounts of consumed, assimilated and metabolized food between treatment groups and control group.

	Amount of food		
	Consumed	Assimilated	Metabolized
Anise 0.1%	<0.001	<0.001	0.134
0.25%	<0.001	<0.001	<0.001
0.5%	<0.001	<0.001	0.010
Dill 0.1%	<0.001	<0.001	<0.001
0.25%	<0.001	<0.001	<0.001
0.5%	<0.001	<0.001	0.003
Fennel 0.1%	0.006	0.004	0.650
0.25%	<0.001	<0.001	<0.001
0.5%	<0.001	<0.001	<0.001
Neem 0.1%	<0.001	<0.001	0.002
0.25%	<0.001	<0.001	<0.001
0.5%	<0.001	<0.001	<0.001
