

(A)

| Conditions | Phosphorylation events increasing | Phosphorylation events decreasing |
|----------------------|-----------------------------------|-----------------------------------|
| Hi./Lo. speed | 18 | 13 |
| Hi speed/filtration | 100 | 175 |
| Lo. speed/filtration | 42 | 103 |

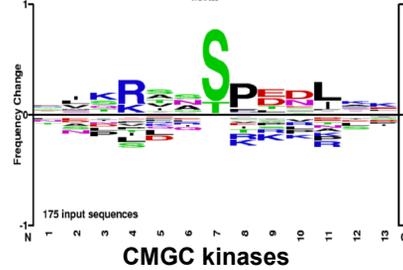

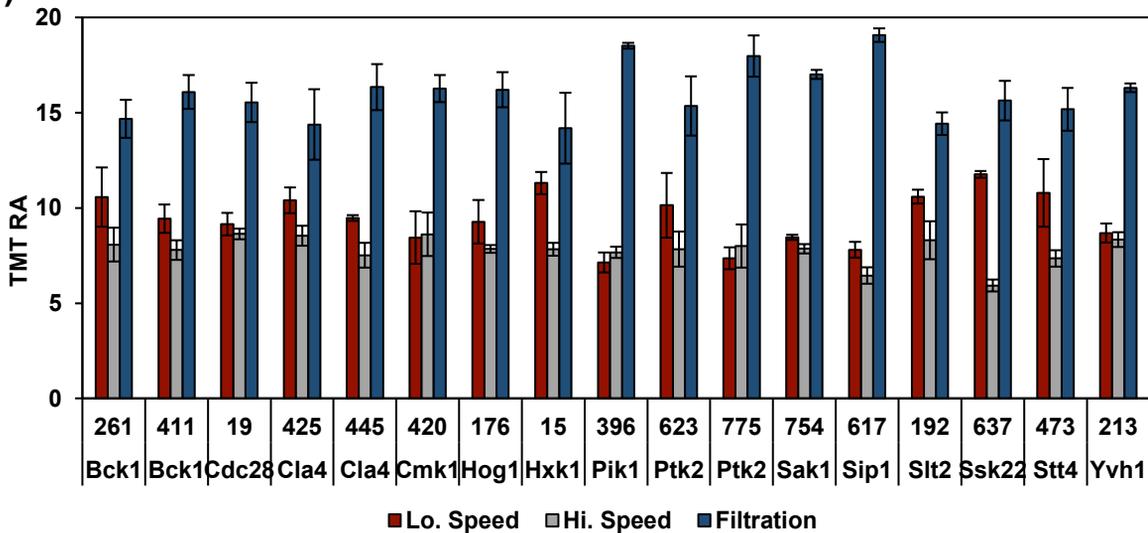

$\log_2 Fc$ 0.75
p-value < 0.05

(B)

Phosphorylation events increasing

Phosphorylation events decreasing

**(C)****(D)**

Kinase inactivation: Phosphorylation outside of the activation loop
