

Supplementary Figure S1A Volcano plots showing differential gene expression for 394-1-27-12 (resistant) at 12, 24, 72 and 120 hours post inoculation (hpi)

\log_2 fold change cutoff, 3; p-value cutoff, 10^{-4}

Supplementary Figure S1B Volcano plots showing differential gene expression for Butterbush (susceptible) at 12, 24, 72 and 120 hours post inoculation (hpi)
