### Message from the Guest Editors

Dear Colleagues,

This Special Issue will dedicate attention to the actions of governmental organizations to boost innovation to its full potential, both inside the organization (optimizing work processes, using incentives schemes for public employees, e-government, etc.) and outside the organization (exploiting new practices of outsourcing like pre-commercial procurement, procurement of innovative solutions and innovation partnerships). The goal is to enhance the understandings about determinants of those actions and their impact on performance.

Topics of interest include, but are not limited to:

- Determinants of innovation initiatives/actions
- Incentive schemes for innovation initiatives/actions
- Performance measurement of innovation
- Public procurements for innovation
- Innovation in public procurements

Dr. Phuong Tra Tran
