Deadline for manuscript  
submissions:

**closed (5 April 2024)**

### Message from the Guest Editors

Codex, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO) published three technical guidance documents in the 2000s about the risk assessment of microbiological hazards in foods, commonly referred to as microbiological risk assessment (MRA). However, due to the advancement of science, there is a need to update the data and the methods to evaluate MRA. This together with new tendencies based on reductions in pesticides in favour of the use of biocontrol and other natural strategies require new studies about the control and risk of microbiological contamination of the final agricultural product.

This Special Issue aims to highlight impactful research on the control and risk assessment of microorganisms in agriculture products. It will include interdisciplinary studies on agriculture with disciplines of biology, chemistry, bioinformatics, and engineering. Research articles may include the control of spoilage microorganisms and toxin producers. All types of articles, such as original research, opinions, and reviews, are welcome.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
