Deadline for manuscript  
submissions:

**closed (15 November 2018)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue intends to summarize the recent progress in the elucidation of legume-rhizobia symbiotic signaling, rhizobial infection, nodule organogenesis, biological nitrogen fixation, nitrogen assimilation and nodule senescence. Submission of manuscripts on studies that utilize biochemical, genetic, pharmacological, genomic approaches to further our knowledge in the area of legume-rhizobia symbiosis and reviews that discuss the scope of transferring the legume-rhizobia symbiotic signaling to non-legumes is strongly encouraged. All types of articles, original research, opinions and reviews that provide new insights into legume-rhizobia symbiosis are welcome.

Dr. Muthu Venkateshwaran

Dr. Oswaldo Valdés-Lopez

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
