Message from the Guest Editor

Dear Colleagues,

The increasing food/feed demand, together with the persistent dependence on oils for energetic purposes, makes oil production an issue that deserves continuous attention. Additionally, the concerns on oil production environmental impacts, as well as the climate change effects on oil crops needs to be discussed and probably reshaped to grant the future oil supply that our society will need.

This Special Issue aims to look into the production, processing and quality of oils for food/feed, cosmetic, biodiesel and other purposes, without forgetting waste management. Articles focusing on new or renewed oil sources production are welcomed, from vegetable, microalgae, insect or other sources.

Message from the Editor-in-Chief

Agriculture (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

Journal Rank: JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
