### Message from the Guest Editors

The 24th International Symposium on the Fundamentals of Computation Theory (**FCT 2023**) is an annual international conference held in Germany that is designed to cover a broad range of topics related to Theoretical Computer Science.

We will welcome and invite selected papers with a clear algorithmic nature whose abstracts have been submitted to the conference. We will base our invitations on the reviews received for these abstracts and the impression of the presentation at the conference.

Deadline for manuscript  
submissions:

**closed (31 January 2024)**

## Message from the Editor-in-Chief

Algorithms are the very core of Computer Science. The whole area has been considered from quite different perspectives, having led to the development of many sub-communities: Complexity theory (limitations), approximation or parameterized algorithms (types of problems), geometric algorithms (subject area), metaheuristics, algorithm engineering, medical imaging (applications), indicates the range of perspectives. Our journal welcomes submissions written from any of these perspectives, so that it may become a forum for exchange of ideas between the corresponding scientific subcommunities.

## Author Benefits

**Open Access :** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Ei Compendex](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Computer Science, Theory and Methods) / CiteScore - Q1 (Numerical Analysis)
