Redox Regulation during Mucosal Host-Microbe Interactions

Guest Editors:

Dr. Birke J. Benedikter

 Institute for Lung Research, Philipps University Marburg, Marburg, Germany
Department of Medical Microbiology, Maastricht University, Maastricht, The Netherlands

Dr. Antje R. Weseler

Interim Professor of Translational Pharmacology and Medicine, Department of Nursing Science, University of Applied Sciences, Bochum, Germany

Dr. Carla Bellinghausen

Postdoctoral Researcher, Department of Respiratory Medicine and Allergology, University Hospital Frankfurt, Goethe University Frankfurt, Frankfurt, Germany

Deadline for manuscript submissions: closed (15 January 2022)

Message from the Guest Editors

Dear Colleagues,

In this Special Issue, we aim to compile the most recent data from fundamental and clinical research on the role of an altered redox balance during mucosal host-microbe interactions in homeostasis, chronic inflammation and infection. This special issue welcomes full length manuscripts and short communications, including original research, review articles and concept papers.

Prof. Dr. Alessandra Napolitano

Department of Chemical Sciences, University of Naples "Federico II", Via Cintia 4, I-80126 Naples, Italy

Message from the Editor-in-Chief

It has been recognized in medical sciences that in order to prevent adverse effects of "oxidative stress" a balance exists between prooxidants and antioxidants in living systems. Imbalances are found in a variety of diseases and chronic health situations. Our journal *Antioxidants* serves as an authoritative source of information on current topics of research in the area of oxidative stress and antioxidant defense systems. The future is bright for antioxidant research and since 2012, *Antioxidants* has become a key forum for researchers to bring their findings to the forefront.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, FSTA, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Food Science & Technology) / CiteScore - Q1 (Food Science)
