Germany

Deadline for manuscript
submissions:

closed (20 October 2023)

Message from the Guest Editor

In this Special Issue of Applied Sciences, we would like to collect contributions that focus on (but are not limited to) the topic of biomass in materials science and nanotechnology. Corresponding studies on the synthesis, functionalization, material hybridization, and various applications of biomass materials are welcome.

Keywords

- biomass materials
- synthesis methods
- nanoparticles
- 2D materials
- cellulose materials
- chitin materials
- DNA/protein/peptide materials
- biopolymers
- hybrid materials
- biomedicine
- functional tailoring
- tissue engineering
- energy storage
- photocatalytic catalysis
- environmental science
- nanodevices

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
