

Multifunctional Composites and Structures for Aerospace and Mechanical Applications

Guest Editor:

Dr. Hyunbum Park

Department of Mechanical
Engineering, Kunsan National
University, 558 Daehak-ro,
Miryong-dong, Gunsan 54150,
Jeollabuk-do, Republic of Korea

Message from the Guest Editor

The aim of this Special Issue is to collate the most recent research advancements in the fields of aerospace and mechanical engineering, with special consideration given to composite applications. As the Guest Editor of this Special Issue, I kindly invite you to submit full research articles and reviews addressing (but not limited to) the following topics:

Deadline for manuscript
submissions:

30 April 2025

- Structural design of aircrafts using composites;
- Optimal design of aircrafts using composites;
- Structural analysis of design results;
- FEM analysis;
- Composite damage criteria;
- Application of fiber composites in aircrafts;
- Application of sandwich composites in aircrafts;
- Impact damage of aerospace structures;
- Composite specimen test of structural design for aerospace structures;
- Evaluation of mechanical properties using numerical method for composite structures;
- Evaluation of mechanical properties using specimen test for composite structures;
- Manufacturing process of composite structures for aerospace engineering;
- Manufacturing method of composite structures;
- Structural test of aircrafts.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo

Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
