

Very Short/Short/Medium/Long Term Load Forecasting and Renewables Forecasting

Guest Editor:

Prof. Dr. Luis Hernández-Callejo

Department of Agricultural and Forestry Engineering, University of Valladolid, Campus Duques de Soria, 42004 Soria, Spain

Deadline for manuscript submissions:

closed (30 June 2023)

Message from the Guest Editor

We encourage authors to submit research papers, reviews, technical papers, case studies, and methodologies. With the topic "Very Short/Short/ Medium/Long-Term Load Forecasting and Renewables Forecasting", the SI receive articles on:

- Statistical forecasting models (ARIMA; SARIMA; ARMAX; multi-variate regression; Kalman filter; etc.);
- Artificial neural networks (ANNs);
- Knowledge-based expert systems and fuzzy theory and fuzzy inference systems;
- Evolutionary computation models and evolutionary algorithms;
- Support vector regression (SVR);
- Chaos theory;
- New models for forecasting demand and generation (mainly renewable);
- Hybrid forecast architectures (demand and generation);
- Important variables in the forecast;
- Correlation analysis between variables;
- Forecasting applications to the management of the electrical system or microgrids;
- Forecast (renewable demand or generation) for the management of storage in Smart Grids or Microgrids.

an Open Access Journal by MDPI

Editor-in-Chief

da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
