Message from the Guest Editor

Dear Colleagues,

In this Special Issue, the Guest Editor welcomes the submission of papers related to investigations on the integration of different nanomaterials into photonic and optoelectronic structures/devices, or using more standard materials, but including nano-patterned photonic/plasmonic structures. The papers should include optical/electrical properties of the integrated nanomaterials and fabricated structure/devices.

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal Applied Sciences has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Multidisciplinary*) / CiteScore - Q1 (*General Engineering*)
