

Selected Papers in the Section Materials 2022

Guest Editor:

Dr. Roberto Zivieri
Istituto Nazionale di Alta
Matematica (INdAM), 00185
Rome, Italy

Deadline for manuscript
submissions:

closed (31 December 2022)

Message from the Guest Editor

To celebrate the recent publication of 20,000 articles in Applied Sciences, we have taken the initiative to launch a Special Issue called “Selected Papers in the Section Materials 2021”. We would like to invite well-known experts in all the areas of interest covered by “Materials” to submit their original research or review articles of the highest quality to celebrate with our readers on this special occasion.

This Special Issue encourages multidisciplinary research in the field of novel material development and innovative material applications. It spans the full range of material types, encompassing polymers, ceramics, metals, hybrid materials, and any type of metamaterials and of quantum materials. The main focus is on novel developments and applications in society relevant themes. More specifically, articles dealing with the application of materials and different classes of metamaterials in novel electronic, optical, or mechanical devices, the use of functional materials in applications related to energy and the environment, and novel manufacturing techniques, such as additive manufacturing, are highly welcomed.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica,
Politecnico di Milano, Piazza L.
da Vinci 32, 20133 Milano, Italy

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, Embase, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (Fluid Flow and Transfer Processes)
