Message from the Editor-in-Chief

In the ever-changing field of respiratory medicine, I am excited to welcome you as the Editor-in-Chief of *Advances in Respiratory Medicine*. Our journal, backed by the Polish Respiratory Society and published by MDPI, is a key platform for peer-reviewed, open access research. As new discoveries continue to be made in all fields of respiratory diseases, *Advances in Respiratory Medicine* aims to stay up to date. We are indexed in reputable databases like ESCI (Web of Science), Scopus and PubMed, and we are proud of our efficient manuscript review process of providing authors with a first decision in around 26 days (median values for papers in the second half of 2023). We invite your participation and collaboration as we navigate and contribute to exciting developments in respiratory research.

Editor-in-Chief

Prof. Dr. Adam Barczyk

Aims

Advances in Respiratory Medicine, which started publishing in 1909, is a peer-reviewed, open access, bi-monthly journal of the Polish Respiratory Society. It publishes research articles, review articles, systematic reviews, guidelines, editorials, short communications, etc. *Advances in Respiratory Medicine* publishes both clinical and basic research, and it is also open to the publication of phased trial work.

We aim to collect high-quality and cutting-edge articles of interest in respiratory medicine and provide an efficient, reliable, and guaranteed platform for scholars and readers. Full experimental and/or methodological details must be provided for research articles. Therefore, there is no restriction on the maximum length of papers or the number of electronic multimedia and supplementary files.

Scope

Advances in Respiratory Medicine is a journal of respiratory medicine, covering allergology, immunology, oncology, and infectious diseases of the respiratory system. It welcomes manuscripts related to respiratory system structure, physiology, pathology, diagnostics, and treatment. It includes, but is not limited to, manuscripts on the following subjects:

- Respiratory structure and physiopathology;
- Clinical problems, rehabilitation, chronic care, and respiratory medicine;
- Chronic airway diseases;
- Infectious diseases of the respiratory system;
- Interstitial lung diseases;
- Genetic diseases with respiratory manifestations;
- Pulmonary vascular diseases;
- Rare (orphan) diseases with respiratory system involvement;
- Respiratory intensive care;
- Thoracic oncology;
- Thoracic surgery and lung transplantation;
- Sleep-disordered breathing;
- Epidemiology and environment;
- Respiratory diagnostics;
- Respiratory medicine in pediatrics.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

2022 Impact Factor: 1.8

(*Journal Citation Reports* - Clarivate, 2023)

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Coverage by Leading Indexing Services

Scopus, ESCI (Web of Science), PubMed, MEDLINE, PMC, and other databases

Rapid Publication

A first decision is provided to authors approximately 25.9 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the second half of 2023)
